

AR-15 TACTICAL MICRO REAR SIGHT 600 METER - KNIGHTS ARMAMENT AR-15 FLIP-UP ADJ TACTICAL MICRO REAR SIGHT 600 METER BLK

[Rifle Parts](#) > [Sights](#) > [Rear Sights](#)

KAC's line of Micro Iron Sights are currently in use by the United States Army, Marine Corps and numerous law enforcement agencies worldwide. This is because they are built to exacting tolerances, maintain their zero under adverse conditions and, when folded, have one of the lowest profile top-rail footprints in the industry. The KAC 600 Meter Micro Rear Sight features a finger-adjustable, rotating drum that enables shooters to engage targets from 200 to 600 meters with both speed and accuracy. Zeroing Tips 600 Meter Rear Sights: 25/300 Meter Zero: Place a target 25 meters down range. Turn the rear sight drum to the "Z" setting and fire a 3 round group(s). Adjust the front sight post and rear sight windage knob until the desired point-of-aim/point-of-impact is achieved. If possible, turn the rear sight drum to the "3" setting and confirm zero at 300 meters. 50/200 Meter Zero: Place a target 50 meters down range. Turn the rear sight drum to the "2" setting and fire a 3 round group(s). Adjust the front sight post and rear sight windage knob until the desired point-of-aim/point-of-impact is achieved. If possible, place a target 200 meters down range and confirm zero.

NOTE: Once zeroed by one of the above methods, the rear sight's 200, 300, 400, 500, and 600 meter range marks may be used for engaging targets at those distances. However, because the range markings are averaged between rifle and carbine barrel lengths, the exact point-of-aim/point-of-impact sight settings may differ a click or two for a given rifle. If possible, fire your rifle at known distances and record your exact + or - clicks for each range. The rear sight's intermediate clicks between major range markings may also be used to engage targets at ranges such as 250 meters, 375 meters, etc.

Attributes

- Name: [KNIGHTS ARMAMENT AR-15 FLIP-UP ADJ TACTICAL MICRO REAR SIGHT 600 METER BLK](#)
- Manufacturer: [KNIGHTS ARMAMENT](#)
- Product no.: 100015208

Safety Instruction Guide for AR15 Tactical Micro Rear Sight 600 Meter

Introduction

Thank you for choosing the AR15 Tactical Micro Rear Sight 600 Meter by Knights Armament. This guide provides essential safety instructions to ensure the safe use and maintenance of your rear sight. Please read this guide thoroughly before using the product.

General Safety Guidelines

- Ensure proper handling and storage of the sight to avoid accidental damage or injury.
- Always wear appropriate eye protection when using firearms equipped with this sight.
- Keep the sight and all firearm accessories out of reach of children and unauthorized users.
- Regularly inspect the sight for any signs of wear or damage before use.
- Follow all local laws and regulations regarding firearm usage and accessories.

Specific Safety Precautions for Use

- Only use the AR15 Tactical Micro Rear Sight with compatible firearms and ammunition.
- Do not modify the sight in any way, as this may compromise its safety and functionality.
- Ensure that the sight is securely attached to the firearm before use.
- Always check the zeroing of the sight before engaging in target practice or hunting.
- Be aware of your surroundings and ensure a safe shooting environment.

Instructions for Installation and Usage

Installation

1. **Compatibility Check:** Ensure the sight is compatible with your AR15 model and Picatinny rails.
2. **Mounting the Sight:**
 - Align the sight with the Picatinny rail on your firearm.
 - Securely tighten the mounting screws using the appropriate tool, ensuring the sight is stable and does not move.
3. **Zeroing the Sight:**
 - Follow the zeroing tips provided in the product description to set your sight for optimal accuracy.

Usage

- **Adjusting the Sight:**
 - Use the fingeradjustable, rotating drum to set the desired distance (200 to 600 meters).
 - Confirm the adjustments by firing a group of three rounds and making necessary corrections.
- **Maintaining the Sight:**
 - Regularly clean the sight to remove dirt and debris.
 - Store the sight in a dry place when not in use to prevent corrosion.

Disposal Instructions

- Dispose of any damaged or nonfunctioning parts in accordance with local regulations.
- Do not throw the sight in regular household waste. Check for recycling options for metal and plastic components.

Contact Information for Further Support

For any safety inquiries or support regarding the AR15 Tactical Micro Rear Sight 600 Meter, please consult the product packaging or visit the manufacturer's website for more information.

Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation. Enjoy your shooting experience!
