

AR-15/M16 ARMORER'S WRENCH - MAGPUL AR15/M4 ARMORER'S WRENCH BLACK

[Gunsmith Tools](#) > [Rifle Tools](#) > [Wrenches](#)

AR-15/M16 ARMORER'S WRENCH The Magpul AR-15/M16 Armorer's Wrench is a robust, American-made tool engineered for comprehensive assembly and maintenance of AR-15 and M16 platforms. Constructed from solid, heat-treated steel with a manganese phosphate finish, this wrench ensures durability and a secure grip during use. Key Features: Barrel Nut Engagement: Compatible with both stock and pin-style barrel nuts, facilitating versatile application. Flash Hider Compatibility: Fits standard-sized flash hiders, aiding in their installation and removal. Receiver Extension and Castle Nut Installation: Designed to install and remove rifle receiver extensions and carbine castle nuts, featuring extended teeth for use with ASAP® plates. Integrated Hammer Faces: Includes two hammer faces for various assembly tasks. Torque Wrench Compatibility: Works with a $\frac{1}{2}$ " torque wrench, with relevant torque specifications included on the tool for quick reference. Convenient Bottle Opener: Equipped with a bottle opener that fits both metric and SAE bottle caps. Specifications: Material: Heat-treated steel with manganese phosphate finish Length: 11.7 inches Weight: 1.1 pounds Handle Thickness: 0.35 inches Customer Insights: Our customers commend the Magpul AR-15/M16 Armorer's Wrench for its exceptional build quality and functionality. The solid steel construction provides confidence during use, and the comfortable grip enhances control. Customers appreciate its compatibility with various components, including barrel nuts and flash hiders. The inclusion of torque specifications on the tool is noted as a practical feature. Some customers have highlighted the integrated bottle opener as a thoughtful addition. Incorporating the Magpul AR-15/M16 Armorer's Wrench into your toolkit ensures you have a durable and versatile tool for efficient assembly and maintenance of your AR-15 or M16 rifle. Its comprehensive features and sturdy construction make it an essential asset for both professional gunsmiths and firearm enthusiasts.

AR15/M16 Armorer's Wrench Safety Instructions

Introduction

Thank you for choosing the AR15/M16 Armorer's Wrench by MAGPUL. This product is designed to provide a reliable and efficient tool for firearm assembly and maintenance. Please read this safety instruction guide carefully to ensure safe and proper use of the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as outlined in this manual.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the wrench.
- Keep the product out of reach of children and unauthorized users.
- Inspect the wrench for any damage before use. Do not use if damaged.
- Use the wrench in a welllit and stable environment to avoid accidents.
- Be aware of your surroundings and ensure that no one is in the way when using the wrench.
- If you experience any discomfort or pain while using the tool, stop immediately and seek assistance.

Specific Safety Precautions for Use

- Do not exceed the recommended torque specifications when using the wrench.
- Ensure that the wrench is securely attached to the component being worked on to prevent slippage.
- Use the wrench in a controlled manner; avoid sudden movements that could cause injury.
- When using the bottle opener feature, ensure that the bottle is stable to prevent spills or breakage.
- Store the wrench in a safe and dry place when not in use to prevent rust and damage.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components before beginning your project.
- Ensure that you are familiar with the parts you will be working on.

2. Using the Wrench:

- For stock and pinstyle barrel nuts:
 - Align the wrench with the nut and apply steady pressure.
 - Turn the wrench in the direction specified for tightening or loosening.
- For rifle receiver extensions and carbine castle nuts:
 - Position the wrench on the component and use the extended teeth for better grip.
 - Apply the appropriate torque using a $\frac{1}{2}$ " torque wrench.
- For flash hiders:
 - Ensure the wrench fits securely before applying torque.

3. PostUse Care:

- Clean the wrench after each use to remove any debris or oil.
- Inspect for wear and tear, and replace if necessary.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the wrench in regular household waste.

- If the wrench is damaged beyond repair, consider recycling the steel components where possible.

Contact Information for Further Support

For safety inquiries or further assistance, please consult the manufacturer's website or customer service.

By following these guidelines, you can ensure the safe and effective use of the AR15/M16 Armorer's Wrench. Thank you for your attention to safety.
