

SOFT JAW PLIERS - Best Way Tools LONG NOSE SLIP JOINT PLIERS

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Pliers & Tweezers](#)

These soft jaw pliers help prevent marring during gunsmith work. Great for use during inspections, cleaning, polishing, or parts installation. Soft jaws are held in place by a small phillips head screw, and are easily replaceable should they become damaged.

Safety Instruction Guide for SOFT JAW PLIERS

Introduction

Thank you for choosing the SOFT JAW PLIERS from Best Way Tools. These pliers are designed to assist you in various tasks such as gunsmith work, inspections, cleaning, polishing, and parts installation. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always read and understand the user manual before using the product.
- Ensure that the pliers are in good working condition before each use.
- Keep the pliers out of reach of children and vulnerable individuals.
- Always wear appropriate personal protective equipment (PPE) such as gloves and safety goggles when using the pliers.
- Report any unsafe conditions or incidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Inspect the soft jaws for damage before each use. Replace them if they are worn or broken.
- Use the pliers only for their intended purpose. Do not use them for tasks they are not designed for.
- Ensure that your hands are dry and clean before handling the pliers to prevent slipping.
- Avoid using excessive force when gripping objects to prevent damage to both the pliers and the object.
- Store the pliers in a dry place to prevent rust and corrosion.

Instructions for Installation and Usage

1. Installation of Soft Jaws

- To replace the soft jaws, use a small Phillips head screwdriver to remove the screw holding the jaws in place.
- Carefully detach the damaged soft jaws from the pliers.
- Align the new soft jaws with the plier's jaw opening.
- Secure the new soft jaws in place by tightening the screw until snug. Do not overtighten.

2. Using the Pliers

- Hold the pliers firmly with one hand, ensuring a comfortable grip.
- Position the soft jaws around the object you wish to grip.
- Squeeze the handles together gently to engage the soft jaws with the object.
- Adjust the pressure as needed, avoiding excessive force.
- When finished, release the handles to disengage the object.

Disposal Instructions

- Dispose of damaged pliers and soft jaws in accordance with local waste disposal regulations.
- Recycle components where possible. Check with local recycling programs for guidance.

Contact Information for Further Support

For any questions or concerns regarding the use and safety of your SOFT JAW PLIERS, please consult the product packaging or visit the manufacturer's website for further information.

By following these safety instructions, you can ensure a safe and effective experience with your SOFT JAW PLIERS. Thank you for your attention to safety!
