

CASE MOUTH AND NECK TENSION GAGE - BROWNELL'S 224/308 CASE MOUTH GAUGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

Measuring neck diameter with calipers is an "iffy" proposition at best. A small burr on the case mouth, a slight angle to the calipers, or even just placing too much tension on the calipers can give distorted readings. Improper neck tension can make projectile insertion more difficult, or even cause a safety issue if the neck is too loose. This gage is for 224 diameter and 308/310 diameter brass. It will do cartridges such as .223 Remington, 5.56mm NATO, 7.62mm NATO, .308 Win, .30-06, 7.62x39mm, and many more.

Attributes

- Name: [BROWNELL'S 224/308 CASE MOUTH GAUGE](#)
- Manufacturer: [BROWNELL'S](#)
- Product no.: 100015615
- Mfr. No.: T1522C12
- Caliber: 22 Caliber (.224), 30 Caliber (.308)
- Delivery weight: 0.027kg
- Shipping height: 19mm
- Shipping width: 66mm
- Shipping length: 160mm
- UPC: 857042005025

CASE MOUTH AND NECK TENSION GAGE SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the Case Mouth and Neck Tension Gage from Brownells. This guide provides essential safety instructions and usage guidelines to ensure the safe operation of this product. Please read this document carefully before use.

General Safety Guidelines

- Ensure that the product is used in accordance with the intended purpose as described in this manual.
- Always inspect the gage for any signs of damage or wear before use. Do not use if damaged.
- Keep the gage out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for product recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the gage only for measuring neck diameters of cartridges specified in the product description.
- Avoid applying excessive force when using calipers to prevent distorted readings and potential injury.
- Ensure that the measuring surface is clean and free from debris to obtain accurate measurements.
- Be aware of the potential hazards of improper neck tension, which may lead to projectile insertion difficulties or safety issues.
- Always wear appropriate safety gear, such as safety glasses, when working with ammunition and related tools.

Instructions for Installation and Usage

1. Preparation:

- Gather necessary tools including the Case Mouth and Neck Tension Gage and calipers.
- Ensure that your workspace is clean and welllit.

2. Using the Gage:

- Select the appropriate side of the gage for the caliber you are measuring (22 Caliber or 30 Caliber).
- Align the case mouth with the measuring surface of the gage.
- Gently close the calipers around the case mouth without applying excessive force.
- Read the measurement displayed on the calipers.
- Repeat the measurement as necessary to ensure accuracy.

3. PostUse:

- Clean the gage after use to maintain its accuracy and longevity.
- Store the gage in a safe, dry place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of the gage in accordance with local regulations regarding nonhazardous materials.
- Do not discard in regular household waste if it is damaged or broken.

Contact Information for Further Support

For any inquiries or further assistance regarding the Case Mouth and Neck Tension Gage, please refer to the contact information provided by the manufacturer or retailer where the product was purchased.

Thank you for your attention to these safety instructions. Your safety is our priority.
