

# APPLICATOR - LUCAS OIL PRODUCTS APPLICATOR 3 PACK

[Gunsmith Tools](#) > [Shop Accessories & Supplies](#) > [Liquid Squeeze Bottles](#)

Lucas Oil Applicator Bottle is the same superior quality American made 1 ounce bottle Lucas Oil uses for our Fishing Reel Oil and Extreme Duty Gun Oil, but sold empty. Many customers buy a larger bottle of oil but find that the standard flip or twist top is not ideal for precision application. The Lucas Oil Applicator Bottle solves this problem with its precision needle applicator for one-drop applications allowing you to put just the right amount of lubricants, solvents or other liquids into hard to reach areas. The durable metal needle can be unscrewed from the cap for easy cleaning. The size is ideal for a tool box or range bag and the rubber caps tight seal keeps the contents inside. The clear label allows you to see what is in the bottle and features a blank write on space to identify the contents.

# Safety Instruction Guide for Lucas Oil Applicator Bottle

## Introduction

Thank you for choosing the Lucas Oil Applicator Bottle. This product is designed to provide precision application of lubricants, solvents, and other liquids. To ensure your safety and the safe use of this product, please read this guide carefully.

## General Safety Guidelines

- Always use the applicator bottle for its intended purpose.
- Keep the applicator bottle out of the reach of children and pets.
- Do not use the applicator bottle for food or beverages.
- Inspect the bottle and needle for any damage before use.
- Avoid contact with eyes and skin. If contact occurs, rinse with plenty of water.
- Store the bottle in a cool, dry place away from direct sunlight and heat sources.
- Dispose of any unused liquids in accordance with local regulations.

## Specific Safety Precautions for Use

- Ensure that the needle is securely attached before using the applicator bottle.
- Use caution when applying liquids to avoid oversaturation or spillage.
- Do not point the needle at yourself or others while using the applicator.
- If the needle becomes clogged, carefully unscrew it from the cap for cleaning.
- Do not attempt to refill the bottle with any substances not intended for use with this product.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the applicator bottle is clean and dry before use.
- Check that the metal needle is properly attached to the cap.

### 2. Filling the Bottle:

- Remove the cap from the bottle.
- Fill the bottle with the desired liquid, ensuring not to overfill.
- Replace the cap securely.

### 3. Using the Applicator:

- Hold the bottle upright.
- Gently squeeze the bottle to dispense a small amount of liquid through the needle.
- For precise application, use a controlled squeeze to achieve onedrop applications.

### 4. Cleaning the Needle:

- After use, unscrew the needle from the cap.
- Clean the needle with warm soapy water or an appropriate solvent.
- Rinse thoroughly and allow to dry before reattaching.

### 5. Storing the Bottle:

- Store the applicator bottle with the cap securely fastened.
- Keep it in an upright position to prevent leakage.

## **Disposal Instructions**

- Dispose of the applicator bottle in accordance with local waste disposal regulations.
- If the bottle is empty, ensure it is cleaned before disposal.
- Do not dispose of the bottle in household recycling unless specified by local guidelines.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and use of the Lucas Oil Applicator Bottle, please refer to the manufacturer's contact details provided on the product packaging or visit the official website.

Thank you for your attention to these safety instructions. Your safety is our priority.
