

AR-15 KEYMOD WIRE MANAGEMENT COVER POLYMER - KNIGHTS ARMAMENT WIRE MANAGEMENT COVER KEYMOD POLYMER BLACK 5.5"

[Rifle Parts](#) > [Forend & Handguard Parts](#) > [Handguard & Rail Accessories](#) > [Rail Covers](#)

The KAC Keymod Wire Management Kit includes a set of two 5.5" wire management polymer rail panels and one switch pocket. The textured panels are the same as Knight's standard Keymod panels, but include the addition of hooks on side, so that light and/or laser wires can be securely tucked out of the way. Each textured panel snaps securely to any bare section of Keymod equipped rail, providing a more positive gripping surface and also insulating the support hand from barrel heat. The switch pocket also attaches to Keymod interfaces, and allows for the secure placement of light or laser switches. While designed for the URX 4 rail, these panels will also fit any other rifle handguard that has a Keymod interface.

Attributes

- Name: [KNIGHTS ARMAMENT WIRE MANAGEMENT COVER KEYMOD POLYMER BLACK 5.5"](#)
- Manufacturer: [KNIGHTS ARMAMENT](#)
- Product no.: 100016839
- Mfr. No.: 31560BLK

AR15 Keymod Wire Management Cover Safety Instruction Guide

Introduction

Thank you for choosing the AR15 Keymod Wire Management Cover by Knights Armament. This product is designed to enhance the functionality of your rifle while ensuring safe use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's instructions.
- Inspect the product for any damage before use. Do not use if any part is damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.
- Ensure that you are using the product in a safe environment, free from hazards.

Specific Safety Precautions for Use

- Ensure that the Keymod Wire Management Cover is securely attached to the rail before use.
- Do not overload the wire management hooks with excessive weight.
- Avoid exposing the product to extreme temperatures or harsh chemicals that may degrade the polymer material.
- Use caution when handling wires and switches to prevent electrical hazards.
- Always ensure that your hands are dry and clean when handling the product to prevent slipping.

Instructions for Installation and Usage

Installation

1. **Preparation:** Ensure that the rail surface is clean and free of debris.
2. **Positioning:** Align the textured panel with the desired section of the Keymod rail.
3. **Attachment:** Firmly press the panel onto the rail until it snaps into place. Ensure that it is secure.
4. **Switch Pocket:** Attach the switch pocket to the Keymod interface by aligning it with the rail and pressing until it is secure.

Usage

- **Wire Management:** Use the hooks on the side of the panels to tuck light and laser wires securely.
- **Switch Accessibility:** Ensure that the switch pocket is easily accessible for operation during use.
- **Regular Checks:** Periodically check the attachment of the panels and switch pocket to ensure they remain secure during use.

Disposal Instructions

- Dispose of the product in accordance with local regulations for plastic materials.
- Do not incinerate the product as it may release harmful substances.
- Consider recycling options if available in your area.
