

FNH SCAR REAR QUICK DETACH POINT - KINETIC DEVELOPMENT GROUP SCAR REAR QD POINT

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Tactical Sling Mounts](#)

Since the factory stock and backend of the SCAR platform provides no QD points, KDG developed the Kinetic Rear QD Point (KRQP). The reduced profile Rear QD point attaches in minutes with no dis-assembly of the rifle. It can be installed on either side of the rifle, and tightly hugs the rear lower HK style factory attachment loop. This is the ideal sling mounting point for those who prefer utilizing a single point QD mounted Sling, but works equally well for those who wish to run a two point sling off the rear of the receiver. The Rear QD point is rotation limited and keeps a factory OEM look to your SCAR. Works on all 7.62 and 5.56 SCAR models Black Anodized Mounts directly to rear of scar receiver Easy Installation Solid billet construction machined from 6061 T6 aluminum Includes replacement screws Compatible with most industry standard QD sling swivels. Material: 6061-T6 Aluminum Finish: Non-Reflective Black Type III Hard-Coat Anodizing 100% Made in the USA

FNH SCAR Rear Quick Detach Point Safety Instructions

Introduction

Thank you for purchasing the FNH SCAR Rear Quick Detach Point (Kinetic Development Group SCAR Rear QD Point). This product is designed to enhance your SCAR platform by providing a reliable and versatile sling mounting solution. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always ensure that the firearm is unloaded before installing or adjusting any accessories.
- Inspect the product for any damage or defects before use. If any issues are found, do not use the product and contact the manufacturer for assistance.
- Use the product only as intended. The Kinetic Rear QD Point is designed specifically for the SCAR platform and should not be used with incompatible firearms or accessories.
- Keep the product out of reach of children and unauthorized users.
- Be aware of your surroundings when using the firearm with the attached QD point to prevent accidents and injuries.

Specific Safety Precautions for Use

- Ensure that the QD point is securely attached to the rear of the SCAR receiver before use. A loose attachment can lead to failure during operation.
- Do not exceed the weight limit of the sling or accessories attached to the QD point. Overloading can cause failure and result in injury.
- Regularly check the attachment and the condition of the QD point during use to ensure it remains secure and functional.
- Avoid using the QD point in extreme conditions (e.g., excessive heat, cold, or moisture) without proper inspection, as these conditions can affect performance and safety.
- If you experience any unusual sounds or movements while using the product, stop using it immediately and inspect for issues.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Locate the rear lower HK style factory attachment loop on the SCAR receiver.
- Align the Kinetic Rear QD Point with the attachment loop.
- Use the included replacement screws to attach the QD point securely. Ensure that the screws are tightened properly to prevent loosening during use.
- Verify that the QD point is installed on either side of the rifle as per your preference.

2. Usage:

- Attach your sling to the QD point by inserting the QD swivel into the mounting point until you hear a click indicating it is secured.
- Adjust the sling length as necessary for comfort and functionality.
- Always ensure the sling is not tangled or obstructed during use.

Disposal Instructions

When it comes time to dispose of the Kinetic Rear QD Point, please follow these guidelines: * Check local regulations regarding the disposal of aluminum materials. * If the product is damaged and cannot be reused, dispose of it in an environmentally responsible manner, ensuring it does not pose a hazard to the environment or wildlife. * Consider recycling the aluminum components to reduce waste and promote sustainability.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the FNH SCAR Rear Quick Detach Point, please refer to the manufacturer's contact information provided with your product packaging.

Thank you for prioritizing safety while using the FNH SCAR Rear Quick Detach Point. Your careful attention to these guidelines helps ensure a safe and enjoyable experience with your firearm accessories.
