308 AR ULTIMATE ENHANCED DUST COVER The patent pending SI UDC 308 enables users to attach and detach the cover in 5 to 10 seconds with ease (stock dust cover will take more time to remove)! It is constructed of a high-density polymer making it more durable and functional than the traditional dust covers. The Ultimate Dust Cover features an adjustable detent set screw in order to compensate wear on the receiver and increase or decrease opening power (To adjust detent: use small flathead driver and depress the ball detent and adjust as necessary.). NEW features of the Ultimate Dust Cover Enhanced Version include the added cut-out window on the rod for easy disassemble and that it has been made thinner than the original weighing in at only 0.4oz! Additionally, The "True Seal" Lip has been slightly modified to provide an even better seal than ever before!

# 308 AR Ultimate Dust Cover Safety Instruction Guide

## Introduction

Thank you for choosing the 308 AR Ultimate Dust Cover by Strike Industries. This guide provides essential safety instructions and information to ensure the safe and effective use of your product. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle the dust cover with care to avoid injury.
- Keep the dust cover and all related components out of reach of children.
- Inspect the product regularly for any signs of damage or wear.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls or safety alerts via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the dust cover only with compatible AR .308 platforms.
- Avoid using excessive force when attaching or detaching the dust cover.
- Do not modify the dust cover in any way that could compromise its integrity or safety.
- Ensure the detent set screw is properly adjusted to avoid unintended opening.
- Be cautious when adjusting the detent; use a small flathead driver and apply gentle pressure to avoid injury.
- Always ensure the dust cover is securely attached before handling the firearm.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your firearm is unloaded and safe to handle.
- Align the dust cover with the ejection port of your AR .308 platform.
- Gently push the dust cover into place until it clicks securely.
- Check that the dust cover is properly seated and does not move freely.

### 2. Usage:

- To detach the dust cover, use a small flathead driver to depress the ball detent.
- Pull the dust cover away from the ejection port while maintaining pressure on the detent.
- To adjust the detent set screw, use a small flathead driver to depress the ball detent and turn the screw clockwise to increase tension or counterclockwise to decrease tension as needed.
- Ensure that the dust cover opens and closes smoothly after adjustments.

## Disposal Instructions

- When disposing of the dust cover, follow local regulations regarding plastic waste.
- Do not dispose of the dust cover in fire as it may release harmful fumes.
- Consider recycling the product if possible, or contact your local waste management for proper disposal methods.
