## WARREN TACTICAL SERIES TRITIUM MIX SET

### Safety Instruction Guide

## Introduction

Thank you for choosing the TRITIUM SIGHT SETS FOR SPRINGFIELD XDS by WARREN TACTICAL SERIES. This safety instruction guide aims to provide you with essential safety information, installation instructions, and proper usage practices to ensure your safety and the optimal performance of your product.

## General Safety Guidelines

- Ensure that the product is suitable for your firearm model (Springfield XDS Subcompact) before installation.
- Always handle your firearm safely and responsibly, following all applicable laws and regulations.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the sights for damage or wear. If you notice any issues, discontinue use and consult a qualified gunsmith.
- Be aware of your surroundings and ensure that you are in a safe environment when using your firearm.
- Report any unsafe products or accidents to the relevant authorities and check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Do not attempt to modify the sights or use them in a manner not intended by the manufacturer.
- Ensure that the sights are properly installed and secured before using your firearm.
- Use the sights only in appropriate lighting conditions to maximize their effectiveness.
- Avoid using the firearm in conditions where visibility is compromised, as this may affect sight alignment and target acquisition.
- If you experience any discomfort or difficulty while using the sights, cease use immediately and seek professional assistance.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Remove the factory sights from your Springfield XDS Subcompact using the appropriate tools.
- Align the new TRITIUM sights with the factory dovetails, ensuring a proper fit.
- The Ramped Rear Sight should be positioned with the nonserrated face facing the shooter.
- Use a drift tool to adjust the sights for windage, securing the position with the locking setscrew.
- Confirm that the rear notch is .150" wide and the front sight is .125" wide by .215" tall for proper alignment.

### 2. Usage:

- After installation, perform a function check to ensure that the sights are secure and properly aligned.
- Practice target acquisition in a safe and controlled environment to familiarize yourself with the new sights.
- Regularly check the sights for any signs of wear or misalignment during routine firearm maintenance.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, take it to a designated collection point for hazardous materials if necessary.
- Ensure that any packaging materials are also disposed of responsibly.
