

# RIFLE CASE LENGTH/HEADSPACE GAUGES - LYMAN 300 AAC BLACKOUT CASE LENGTH/HEADSPACE GAUGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

To achieve the highest degree of safety and accuracy, Lyman recommends that all bottleneck rifle cases be inspected after resizing to ensure that the proper headspace dimension is maintained. The best way to check this critical dimension is with a Lyman case length/headspace gauge. The reloader simply inserts the case into the gauge to insure that it does not exceed the maximum or fall below the minimum allowable headspace. Caution: Any case found with excessive headspace should be destroyed immediately.

## Attributes

- Name: [LYMAN 300 AAC BLACKOUT CASE LENGTH/HEADSPACE GAUGE](#)
- Manufacturer: [LYMAN](#)
- Product no.: 100018228

# Safety Instruction Guide for Lyman 300 AAC Blackout Case Length/Headspace Gauge

## Introduction

Thank you for choosing the Lyman 300 AAC Blackout Case Length/Headspace Gauge. This product is designed to help you ensure the safety and accuracy of your bottleneck rifle cases after resizing. It is essential to follow the safety instructions provided in this guide to prevent accidents and ensure proper use.

## General Safety Guidelines

- Always inspect your cases after resizing to maintain proper headspace dimensions.
- Use the gauge only for its intended purpose; do not modify or misuse it.
- Keep the gauge out of reach of children and vulnerable individuals.
- Report any unsafe products or incidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Inspect for Damage:** Before use, check the gauge for any signs of damage or wear. Do not use if damaged.
- **Proper Handling:** Handle the gauge with care to avoid dropping or damaging it.
- **Excessive Headspace:** If a case is found with excessive headspace, destroy it immediately to prevent potential accidents.
- **Safe Environment:** Use the gauge in a welllit and clean workspace to avoid distractions and accidents.
- **Personal Protective Equipment:** Consider wearing safety glasses and gloves while handling cases and the gauge.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your work area is clean and welllit.
- Gather all necessary tools and materials, including your resized rifle cases and the Lyman gauge.

### 2. Using the Gauge:

- Insert the resized rifle case into the gauge.
- Check that the case does not exceed the maximum or fall below the minimum allowable headspace.
- If the case fits within the acceptable limits, it is safe for further use. If it does not, dispose of it immediately.

### 3. PostUse Care:

- Clean the gauge after each use to maintain accuracy and longevity.
- Store the gauge in a safe, dry place away from moisture and extreme temperatures.

## Disposal Instructions

- Dispose of any cases that are found to have excessive headspace immediately. Follow local regulations for the disposal of hazardous materials.
- Do not throw away the gauge; if it is damaged, contact the manufacturer for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the Lyman 300 AAC Blackout Case Length/Headspace Gauge, please refer to the customer service section on the manufacturer's website or contact your local distributor.

By following these safety instructions, you can ensure that you use the Lyman 300 AAC Blackout Case Length/Headspace Gauge safely and effectively. Thank you for prioritizing safety in your reloading practices.
