

EVOLUTION IV N-FRAME HAMMER - APEX TACTICAL SPECIALTIES INC EVOLUTION IV N-FRAME HAMMER FOR S&W REVOLVERS

[Handgun Parts](#) > [Trigger Group Parts](#) > [Hammer Parts](#) > [Hammers](#)

The Apex Evolution IV Hammer for Smith & Wesson N-Frame revolver allows the user to tune the revolver for a lighter trigger pull weight by adjusting the strain screw for lighter main spring force, without sacrificing reliability. Semi drop-in replacement of factory hammer(minor fitting may be required)
Reduction in trigger pull weight by adjusting strain screw. Converts revolver to Double Action Only(DAO), lacks a hammer spur for cocking. Works in current production S&W N-Frame centerfire revolvers only.

Safety Instruction Guide for the EVOLUTION IV NFRAME HAMMER

Introduction

Thank you for choosing the Apex Evolution IV NFrame Hammer for your Smith & Wesson NFrame revolver. This product is designed to enhance the performance of your firearm by allowing for a lighter trigger pull weight. Please read this safety instruction guide carefully to ensure safe and proper use of the product.

General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Keep your finger off the trigger until you are ready to shoot.
- Store firearms and ammunition securely, away from children and unauthorized users.
- Familiarize yourself with the user manual of your firearm to understand its operation and safety features.
- Ensure that you are in a safe environment when handling firearms.
- Report any unsafe products or accidents to the proper authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- This hammer is intended for use with Smith & Wesson NFrame revolvers only.
- Do not attempt to use this product with any other firearm models.
- Ensure that the revolver is unloaded before installing or adjusting the hammer.
- Minor fitting may be required for installation; do not force the hammer into place.
- This product converts the revolver to Double Action Only (DAO); ensure you understand the implications of this modification.
- Regularly inspect the hammer and revolver for wear or damage.
- If you experience any malfunctions, discontinue use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure the revolver is unloaded and pointed in a safe direction.
- Gather necessary tools for installation (e.g., screwdriver, fitting tool).

2. Installation Steps

- Remove the factory hammer from your Smith & Wesson NFrame revolver according to the manufacturer's instructions.
- Align the Apex Evolution IV Hammer with the revolver's hammer slot.
- If necessary, perform minor fitting to ensure a proper fit.
- Securely attach the hammer, ensuring all components are properly aligned.

3. Adjusting the Strain Screw

- Locate the strain screw on the new hammer.
- Adjust the strain screw to achieve your desired trigger pull weight.
- Test the trigger pull after each adjustment to ensure reliability.

4. Final Checks

- After installation, conduct a function test to ensure the revolver operates correctly.
- Confirm that the hammer is functioning as intended and that there are no obstructions.

5. Usage

- Use the revolver in a safe and controlled environment.
- Regularly check the hammer and trigger mechanism for any signs of wear or malfunction.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the product is no longer in use, consult local waste management guidelines for proper disposal of firearm components.
- Do not discard in regular household waste.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please refer to the contact details provided by the manufacturer or your point of purchase.

Thank you for your attention to these safety instructions. Your safety and the safety of those around you is paramount. Enjoy the enhanced performance of your Smith & Wesson NFrame revolver with the Apex Evolution IV Hammer.
