

TAVOR LIGHTNING BOW® TRIGGER - GEISSELE AUTOMATICS SUPER SABRA LIGHTNING BOW TRIGGER FOR IWI TAVOR SAR & X95

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

The Super Sabra Lightning Bow® Trigger is precision machined from precipitation hardened 17-4 and is designed to replace the standard trigger in IWI Tavor rifles. Once installed, the Sabra Lightning Bow is adjustable via a set screw that removes the “slack” that is inherently found in the trigger mechanism of those rifles. By removing the slack, the trigger pull is instantly transformed into a feel that is much more familiar to that of an M4 Carbine. Pairing the Sabra Lightning Bow with a Super Sabra Trigger Pack will result in a pull that is truly two stage and has a match grade feel.

Attributes

- Name: [GEISSELE AUTOMATICS SUPER SABRA LIGHTNING BOW TRIGGER FOR IWI TAVOR SAR & X95](#)

TAVOR LIGHTNING BOW® TRIGGER Safety Instruction Guide

Introduction

Thank you for choosing the TAVOR LIGHTNING BOW® TRIGGER by Geissele Automatics. This guide contains essential safety instructions and information to ensure the safe and effective use of your trigger. Please read this guide carefully before installation and use.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Keep your finger off the trigger until you are ready to shoot.
- Ensure that the firearm is pointed in a safe direction at all times.
- Use appropriate eye and ear protection when handling firearms.
- Be aware of your surroundings and ensure that you have a clear target.
- Store the trigger and firearm in a secure location away from children and unauthorized users.
- Regularly inspect your trigger and firearm for any signs of wear or damage.

Specific Safety Precautions for Use

- The TAVOR LIGHTNING BOW® TRIGGER is designed for use with IWI Tavor SAR & X95 rifles only.
- Ensure that the firearm is unloaded before beginning installation.
- Follow all instructions carefully to avoid improper installation, which could lead to malfunction.
- Adjust the trigger pull only when the firearm is unloaded and pointed in a safe direction.
- Do not attempt to modify or alter the trigger in any way other than the adjustments specified in this guide.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is completely unloaded.
- Gather necessary tools: a set screw wrench and a flathead screwdriver.

2. Installation Steps

- Remove the existing trigger from the IWI Tavor rifle by following the manufacturer's instructions.
- Carefully install the Super Sabra Lightning Bow® Trigger in place of the original trigger.
- Secure the trigger in place using the appropriate screws.

3. Adjusting the Trigger Pull

- Locate the adjustment set screw on the trigger.
- Using the set screw wrench, turn the screw clockwise to reduce slack and counterclockwise to increase slack.
- Test the trigger pull after each adjustment to ensure it meets your preference.

4. Final Checks

- Once adjustments are complete, conduct a function check to ensure proper operation.
- Make sure the trigger resets correctly and that there are no obstructions.

5. Usage

- When using the firearm, maintain a proper shooting stance and grip.
- Practice safe handling techniques at all times.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the trigger is damaged or no longer in use, follow local guidelines for the safe disposal of firearm components.
- Always ensure that any disposed items do not pose a risk to the environment or public safety.

Contact Information for Further Support

For any questions or concerns regarding the TAVOR LIGHTNING BOW® TRIGGER, please refer to the manufacturer's website or contact their customer support. Ensure that you have the product details available for the best assistance.

By following these safety guidelines and instructions, you can enjoy the enhanced performance of your TAVOR LIGHTNING BOW® TRIGGER while ensuring a safe shooting experience. Thank you for prioritizing safety and responsible firearm use.
