Slim, Maneuverable Tactical Stock With Plenty Of Versatility

Further developing Magpul's original SL stock, the SL-K is designed for compact PDW-style weapons or users who simply desire a small, light, highly maneuverable stock. Drop-in replacement for M4-type adjustable stocks that fit mil-spec (1.14" O.D.) buffer tubes. It offers a short, slim profile, comfortably sloped cheekweld, a rubber recoil pad with a "rolled" toe for easy shouldering and better fit when wearing body armor. Built-in 1.25" sling loop, and also accepts Magpul ASAP® and M-LOK QD Sling Mount (available separately) for pushbutton QD sling swivels. Ambidextrous latch enables easy extension/retraction of stock, plus it minimizes rattle on the receiver extension without requiring additional locks, levers, or springs. Latch made of steel, too, so it won't fail under hard use.
