

# COLLET STYLE HANDGUN CRIMP DIES - LEE PRECISION 357 MAGNUM COLLET STYLE CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

A collet squeezes the case neck against a precision mandrel for a perfect fit with minimum run-out. No case lube is needed. Cases last ten times longer, so the savings on only 35 cases will pay for the dies. Maximum accuracy is usually achieved by seating the bullet out far enough to touch or almost touch the rifling. These dies size only the neck to preserve the perfect fit of fire forming. Only reload cases that have been fired in your gun.

## Attributes

- Name: [LEE PRECISION 357 MAGNUM COLLET STYLE CRIMP DIE](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100018917
- Mfr. No.: 90813

# Safety Instruction Guide for COLLET STYLE HANDGUN CRIMP DIES

## Introduction

Thank you for choosing the COLLET STYLE HANDGUN CRIMP DIES by LEE PRECISION. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the crimp dies.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment and ammunition.
- Always use safety glasses to protect your eyes while reloading.
- Keep your workspace clean and organized to avoid accidents.
- Store the dies and all reloading components out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use only cases that have been fired in your specific firearm to ensure proper fit and safety.
- Avoid using excessive force when operating the crimp dies to prevent damage to the equipment or injury.
- Ensure that the area is wellventilated while reloading to avoid inhalation of any dust or particles.
- Do not attempt to modify the crimp dies in any way, as this can lead to unsafe conditions.
- Be aware of the potential risks associated with handling ammunition components, including lead exposure.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is compatible with the COLLET STYLE HANDGUN CRIMP DIES.
- Follow the manufacturer's instructions for installing the dies into your reloading press.
- Tighten the dies securely to prevent movement during use.

### 2. Usage:

- Begin by adjusting the die to the desired crimp setting. Refer to your reloading manual for specific recommendations.
- Insert the case into the reloading press and position it under the die.
- Operate the press to apply the crimp. Ensure that the case neck is properly aligned with the mandrel.
- Check the crimped cases for consistency and fit before proceeding with loading the bullets.
- Store the crimp dies in a secure location when not in use.

## Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Do not throw away ammunition components in regular household waste.
- Contact your local waste management authority for guidance on the proper disposal of reloading materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the COLLET STYLE HANDGUN CRIMP DIES, please refer to the manufacturer's contact information provided with your product packaging. Ensure you have the product details ready for a more efficient support experience.

By following these guidelines, you can ensure a safe and successful reloading experience. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
