

COLLET STYLE HANDGUN CRIMP DIES - LEE PRECISION 460 S&W COLLET STYLE CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

A collet squeezes the case neck against a precision mandrel for a perfect fit with minimum run-out. No case lube is needed. Cases last ten times longer, so the savings on only 35 cases will pay for the dies. Maximum accuracy is usually achieved by seating the bullet out far enough to touch or almost touch the rifling. These dies size only the neck to preserve the perfect fit of fire forming. Only reload cases that have been fired in your gun.

Attributes

- Name: [LEE PRECISION 460 S&W COLLET STYLE CRIMP DIE](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100018920

Safety Instruction Guide for COLLET STYLE HANDGUN CRIMP DIES LEE PRECISION 460 S&W

Introduction

Thank you for choosing the COLLET STYLE HANDGUN CRIMP DIES from LEE PRECISION. This product is designed to enhance your reloading experience while ensuring safety and efficiency. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the reloading area clean and organized to prevent accidents.
- Ensure that all tools and equipment are in good working condition before use.
- Store reloading components and tools in a secure location, away from children and unauthorized users.
- Follow all manufacturer instructions and guidelines when using this product.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Only use the COLLET STYLE HANDGUN CRIMP DIES with cases that have been fired in your firearm. Do not use with cases fired in other firearms.
- Ensure that the dies are installed correctly in your reloading press to avoid misalignment and potential hazards.
- Do not exceed the maximum recommended load data for your specific cartridge.
- Be aware of the potential hazards associated with reloading, including the risk of injury from mishandling components or equipment.
- Keep your hands and face clear of the reloading area to avoid injury from flying debris or misfires.

Instructions for Installation and Usage

1. Installation of the Die:

- Securely attach the collet die to your reloading press according to the manufacturer's instructions.
- Ensure that the die is aligned properly to avoid any misalignment during operation.

2. Preparing Cases:

- Inspect all cases for damage before reloading.
- Clean the cases thoroughly to remove any debris or contaminants.

3. Reloading Process:

- Insert the case into the die and ensure it is seated correctly.
- Adjust the die to achieve the desired crimp and fit.
- Follow the recommended procedures for seating the bullet, ensuring that it is seated properly to maintain maximum accuracy.
- Monitor the reloading process closely to avoid any malfunctions.

4. PostReloading:

- Inspect reloaded ammunition for quality and safety before use.
- Store reloaded ammunition in a safe and secure location.

Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of reloading components in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the COLLET STYLE HANDGUN CRIMP DIES, please refer to the manufacturer's contact resources. Ensure that you have the product details on hand for a more efficient response.

By following these safety guidelines and instructions, you can enjoy a safe and efficient reloading experience with your COLLET STYLE HANDGUN CRIMP DIES from LEE PRECISION. Thank you for your commitment to safety and quality in your reloading activities.
