Safety Instruction Guide for AR15 Gas Block Assemblies

Introduction

Thank you for choosing the AR15 Gas Block Assembly by CMMG. This guide provides essential safety instructions to ensure the safe use and installation of your gas block assembly. Please read this document thoroughly before use.

General Safety Guidelines

- Always handle firearms and firearm components with care.
- Ensure that the firearm is unloaded before installing or handling the gas block assembly.
- Store the gas block assembly in a safe location, away from children and unauthorized users.
- Regularly inspect the gas block assembly for any signs of wear or damage.
- Follow all local laws and regulations regarding firearms and firearm components.

Specific Safety Precautions for Use

- Use only with compatible AR15 rifles to avoid malfunctions.
- Ensure that the gas block assembly is installed correctly to prevent gas leaks.
- Do not modify the gas block assembly or any associated components.
- If you experience any issues during installation or use, cease operation immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including installation screws.
- Ensure your workspace is clean and free from distractions.

2. Installation Steps:

- Confirm that your AR15 is unloaded and safe to work on.
- Remove the existing gas block if applicable.
- Position the new low profile gas block at the desired location on the barrel.
- Align the gas port of the gas block with the gas port of the barrel.
- Secure the gas block using the provided installation screws. Ensure they are tightened adequately but do not overtighten to avoid damage.

3. PostInstallation Check:

- After installation, visually inspect to ensure that there are no gaps or misalignments.
- Test the functionality of the gas block assembly by cycling the firearm in a safe environment.

4. Usage:

- Always wear appropriate safety gear, including eye and ear protection when firing.
- Regularly check for any signs of wear or malfunction during use.

Disposal Instructions

- Dispose of the gas block assembly responsibly. Follow local regulations for disposal of metal components.
- If the gas block assembly is damaged or no longer usable, do not attempt to repair it. Dispose of it in accordance with local waste management guidelines.

Contact Information for Further Support

For any questions or concerns regarding the installation or use of the AR15 Gas Block Assembly, please consult a qualified gunsmith or contact the manufacturer directly.

By following these guidelines, you can ensure the safe and effective use of your AR15 Gas Block Assembly. Thank you for your attention to safety.
