

SUPER PRECISION TRIJICON MRO MOUNTS - GEISSELE AUTOMATICS LOWER 1/3 CO-WITNESS BLACK MRO MOUNT

[Optics & Mounting](#) > [Electronic Sights](#) > [Mounting Hardware](#)

The Super Precision MRO Series was developed specifically to work with the Trijicon MRO and like mounted red dot optics. These mounts are precision machined from a single piece of 7075-T6 high strength aluminum and are available in both co-witness and lower third co-witness options. Utilizing Geissele's update of the classic nut and bolt method, this mount will attach your red dot to your weapon with 1,400 pounds of clamping force, and features 3 shear lugs for maximum rigidity and return to zero.

SUPER PRECISION TRIJICON MRO MOUNTS SAFETY INSTRUCTION GUIDE

Introduction

Thank you for purchasing the Super Precision Trijicon MRO Mount by Geissele Automatics. This guide provides essential safety instructions to ensure the proper use and installation of your mount, helping you to maximize safety and performance. Please read this guide thoroughly before using the product.

General Safety Guidelines

- Ensure that the mount is compatible with your Trijicon MRO and other mounted red dot optics before installation.
- Always inspect the mount for any visible damage before use. Do not use if damaged.
- Store the mount in a cool, dry place away from direct sunlight and moisture.
- Keep the mount out of reach of children and vulnerable individuals.
- Follow all local laws and regulations regarding the use of mounted optics.

Specific Safety Precautions for Use

- **Clamping Force:** The mount provides a clamping force of 1,400 pounds. Ensure that it is securely fastened to prevent any accidental detachment during use.
- **Shear Lugs:** The mount features three shear lugs for maximum rigidity. Ensure these are properly engaged during installation.
- **Return to Zero:** After installation, test the mount's return to zero by firing a few rounds and adjusting as necessary.
- **Weight Limits:** Ensure your weapon can support the additional weight of the mount and optics without affecting balance or handling.
- **Environmental Conditions:** Avoid using the mount in extreme weather conditions, including heavy rain or snow, as this may affect its performance.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a torque wrench and appropriate screwdrivers.
- Ensure the installation area is clean and free from debris.

2. Installation:

- Align the mount with the mounting points on your weapon.
- Insert screws and handtighten them to hold the mount in place.
- Use a torque wrench to tighten screws to the manufacturer's specified torque settings. This ensures the mount is securely attached without overtightening.
- Verify that the mount is level and properly aligned with your sight.

3. Usage:

- After installation, perform a function check to ensure that the mount is secure and that the optics are properly aligned.
- Regularly check the mount for any signs of wear or loosening, especially after extensive use or exposure to harsh conditions.

Disposal Instructions

- Dispose of the mount in accordance with local regulations for metal and electronic waste.
- If the mount is damaged beyond repair, ensure it is disposed of in a safe manner to avoid environmental harm.

Contact Information for Further Support

For any questions or concerns regarding the Super Precision Trijicon MRO Mount, please refer to the manufacturer's website or customer service for assistance.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy your new mount!
