

VICKERS 2-TO-1 RED SWIVEL SLING - BLUE FORCE GEAR VICKERS 2-TO-1 RED SWIVEL SLING-COYOTE

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Slings](#)

While 2-point slings are ideal for most situations, there are times, like deploying from a vehicle or fighting in complex structures, when a 1-point sling has a clear advantage. Combining Blue Force Gear's new polymer Burnsed Socket and patented RED Swivel, the Vickers 221 Sling allows users to switch from 2-point to 1-point mode instantly by pulling on the RED Swivel knob and reinserting it in to the Burnsed Socket at the rear of the receiver. The instantaneous adjustability of the sling is still maintained in both 1 and 2 point modes. Constructed similar to the world's standard Vickers Combat Applications Sling™, a RED™ Swivel is sewn to the front of the sling towards the muzzle. A standard push button swivel and new molded Burnsed Socket are woven onto the rear allowing full adjustability of the sling for use with or without body armor. The 221™ Sling fits any weapon with two QD sling swivel sockets with the rear socket towards the end of the receiver. For SCARS, Sigs, HKs, or other weapon systems with eyelets at the rear of the receiver, a Universal Wire Loop with Push Button Socket can be added instead of the included push button socket. Sling Build: 1.25" sling webbing 2.00" tubular webbing with closed cell foam padding for padded models Invista solution dyed CORDURA® webbing ITW GhilleTex™ Acetal hardware - a military grade, low IR plastic RED™ Swivel Build: Machined steel, phosphated for maximum corrosion resistance Nylon coated, double crimped directly to 7 strand stainless steel aircraft cable Textured spherico-conical shaped pull knob Stainless Steel internals

Attributes

Vickers 2to1 Red Swivel Sling Safety Instructions

Introduction

Thank you for choosing the Vickers 2to1 Red Swivel Sling by Blue Force Gear. This product is designed for versatility and safety, allowing you to switch between 1point and 2point configurations. Please read this safety instruction guide carefully to ensure proper use and maintenance of your sling.

General Safety Guidelines

- **Product Safety:** This sling is designed to ensure safe use during various activities, including tactical operations and outdoor sports. Always inspect the sling before use.
- **Enhanced Recalls:** Be aware that any safety recalls will be communicated through standardized notices. Stay informed about any updates regarding this product.
- **Online Shopping:** If purchased online, ensure that you buy from reputable sellers who comply with EU safety regulations.
- **Special Consumer Focus:** This product is intended for adult users. Keep away from children and ensure they do not play with the sling.
- **EU Contact Point:** For any safety inquiries, please refer to the contact information provided by your retailer.
- **Rapid Alerts:** Stay updated on product safety by checking the EU's Safety Gate platform for alerts on unsafe products.

Specific Safety Precautions for Use

- **Inspect Before Use:** Always check the sling for any signs of wear, damage, or malfunction before each use.
- **Proper Attachment:** Ensure the sling is securely attached to the weapon's QD sling swivel sockets. A loose connection can lead to accidents.
- **Adjustability:** Make sure to adjust the sling to fit your body properly. An improperly adjusted sling can affect your mobility and control.
- **Avoid Overloading:** Do not exceed the weight limit of the sling. Refer to the product specifications for guidance.
- **Use in Safe Environments:** Avoid using the sling in environments where it may get caught or snagged on objects.
- **Follow Manufacturer Guidelines:** Always adhere to the manufacturer's instructions for use, installation, and maintenance.

Instructions for Installation and Usage

1. Installation:

- Identify the QD sling swivel sockets on your weapon.
- Attach the front of the sling to the socket near the muzzle using the RED Swivel.
- Attach the rear of the sling to the socket towards the end of the receiver.
- If using with SCARS, Sigs, HKs, or similar systems, consider using a Universal Wire Loop with Push Button Socket as needed.

2. Switching Modes:

- To switch from 2point to 1point mode, pull on the RED Swivel knob.
- Reinserting the knob into the Burnsed Socket at the rear of the receiver will secure the sling in 1point mode.
- Ensure the sling is adjusted for comfort and ease of movement in both configurations.

3. **Adjusting Length:**

- Use the Acetal triglides on the sling to adjust the overall length as needed.
- Ensure that the adjustments do not compromise the security of the sling.

4. **Usage:**

- When using the sling, maintain awareness of your surroundings to prevent entanglement.
- Practice using the sling in a safe environment before engaging in tactical or complex situations.

Disposal Instructions

- **Environmental Considerations:** Do not dispose of the sling in regular household waste. Follow local regulations for disposal of textile and plastic materials.
- **Recycling:** If possible, recycle components of the sling, such as webbing and hardware, at designated recycling centers.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the customer service contact provided by your retailer. They will assist you with any questions or concerns you may have.

Thank you for prioritizing safety while using the Vickers 2to1 Red Swivel Sling. Enjoy your experience and stay safe!
