

D3 SLING - HALEY STRATEGIC PARTNERS D3 SLING-COYOTE

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Slings](#)

What started as a custom design built for his Force Recon platoon during a deployment became a lifelong mission for Travis Haley to build a rifle sling that works around the end user, and not the other way around. The D3 Rifle Sling can be run in single point or two point configuration and has been designed to transition between the two in moments. The sling includes two, positive locking QD swivels and features Haley's proven, SDI single hand quick adjustment system. The sling also debuts a low profile pad, inspired by climbing harnesses created by the world's leading mountaineering companies. A 5-layer laminated construction sealed with stretch woven materials, the pad provides stability and comfort without adding weight or bulk.

Attributes

- Name: [HALEY STRATEGIC PARTNERS D3 SLING-COYOTE](#)
- Manufacturer: [HALEY STRATEGIC PARTNERS](#)
- Product no.: 100019789

D3 Sling Haley Safety Instructions

Introduction

Thank you for choosing the D3 Sling by Haley Strategic Partners. This rifle sling has been designed with the end user in mind, ensuring safety and comfort during use. This guide provides essential safety instructions and guidelines to ensure the safe operation and maintenance of your D3 Sling.

General Safety Guidelines

- Always inspect the sling before each use for any signs of wear or damage.
- Ensure that all components, including QD swivels and adjustment systems, are functioning correctly.
- Use the sling only for its intended purpose – to secure a rifle safely during transport and operation.
- Keep the sling out of reach of children and vulnerable individuals to prevent accidents.
- Follow all local laws and regulations regarding the use of firearm accessories.

Specific Safety Precautions for Use

- When transitioning between single point and two point configurations, ensure that the sling is securely attached to the rifle and your body.
- Avoid placing the sling in areas where it could become entangled with other equipment or obstacles.
- Do not exceed the recommended weight limit for the sling, as this may compromise its integrity and safety.
- Be cautious when adjusting the sling; ensure that your fingers are clear of moving parts to avoid pinching or injury.

Instructions for Installation and Usage

Installation

1. Attach QD Swivels:

- Locate the QD swivel attachments on your rifle.
- Align the QD swivel on the sling with the attachment point and push down until you hear a click, indicating it is securely locked.
- Repeat for the second QD swivel.

2. Adjusting the Length:

- To adjust the length of the sling, locate the adjustment mechanism.
- Pull the strap to lengthen or shorten the sling as needed.
- Ensure that the adjustment is secure before use.

Usage

• Single Point Configuration:

- Attach the sling to a single point on the rifle.
- Adjust the length so that the rifle hangs comfortably at your side.
- Ensure that the sling allows for quick access to the rifle when needed.

• Two Point Configuration:

- Attach the sling to two points on the rifle.

- Adjust the length to allow for proper positioning while aiming or carrying the rifle.
- Test the stability of the sling before moving or engaging in activities.

Disposal Instructions

- Dispose of the D3 Sling in accordance with local regulations regarding textile and plastic waste.
- If the sling is damaged beyond repair, consider recycling the materials where possible.
- Do not dispose of the sling in regular household waste if it is still functional; consider donating it to a local shooting club or organization.

Contact Information for Further Support

For any inquiries regarding the D3 Sling or safety concerns, please refer to the manufacturer's website or customer service resources available in your region.

Thank you for following these safety instructions. By adhering to these guidelines, you can ensure a safe and enjoyable experience with your D3 Sling.
