

AR-15 GAS BLOCKS TITANIUM - 2A ARMAMENT AR-15 GAS BLOCK .625 TITANIUM

[Rifle Parts](#) > [Gas System Parts](#) > [Gas Blocks](#)

The 2A-Ti gas block is a simple solution for those looking to save weight on the AR-15 style of firearms. By utilizing titanium, weight can be reduced by as much as 40% over standard steel gas blocks. The low profile design works well under hand guards, and anywhere else that space is at a premium. A basic two set screw design ensures a secure fit, and an easy installation. Blue locking compound is recommended, as well as a dimpled barrel for a superior install. Made from U.S.A. Certified 6AL-4V titanium Internal bore: .625 or .750 Length: 1.0 inch Weight 0.70 ounces Bead blasted matte finish Low profile design Includes two stainless set screws

Safety Instruction Guide for AR15 Gas Blocks Titanium 2A Armament

Introduction

Thank you for choosing the AR15 Gas Blocks Titanium 2A Armament. This guide provides essential safety information, installation instructions, and usage tips to ensure safe and effective operation of the product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always follow local laws and regulations regarding firearm modifications and usage.
- Handle all firearms with care and respect, following standard safety practices.
- Keep the gas block out of reach of children and vulnerable individuals.
- Regularly inspect the gas block for any signs of wear or damage.
- In case of any malfunction or abnormal operation, cease use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- Use only with AR15 style firearms.
- Do not exceed the recommended specifications for installation.
- Ensure that the barrel is properly dimpled to secure the gas block.
- Use blue locking compound to secure set screws and prevent loosening.
- Do not modify the gas block or attempt to repair it yourself.
- Always wear appropriate safety gear, including eye protection, when handling firearms.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools: Allen wrench for set screws, blue locking compound, and any additional tools required for your specific firearm.

2. Installation Steps:

- Select the appropriate internal bore size (.625 or .750) for your application.
- Position the gas block over the dimpled area of the barrel.
- Align the gas block to ensure proper fit and function.
- Apply blue locking compound to the set screws.
- Secure the gas block using the two stainless set screws. Tighten until snug, but do not overtighten to avoid damaging the barrel.

3. PostInstallation:

- Inspect the installation to ensure that the gas block is securely attached.
- Perform a function check of the firearm to ensure proper operation.
- If any issues arise, consult a qualified gunsmith.

Disposal Instructions

- Dispose of the gas block in accordance with local regulations for metal waste.
- Do not dispose of in regular household waste.
- Contact local recycling centers for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or additional support, please contact the manufacturer or a qualified firearms professional. Always ensure that you have the latest safety information and updates regarding your product.

By following these guidelines and instructions, you can ensure the safe and effective use of the AR15 Gas Blocks Titanium 2A Armament. Thank you for prioritizing safety in your firearm practices.
