

# HEXID COLOR IDENTIFICATION SYSTEM - HEXMAG HEXID COLOR IDENTIFICATION SYSTEM RED 2-PK

[Magazines](#) > [Rifle Magazines](#) > [Magazine Parts](#) > [Magazine Followers](#)

Over the years Hexmag has marked their magazines using many different methods such as tape and paint. They found that colored electrical tape made the magazine marking standout when viewed from a distance. There was no need to check letters, numbers or other text, the colored tape worked just fine as an ammo identifier. The HexID Color Identification System is based on the principle that color is the simplest way to mark your magazines. So they incorporated color into our ammo identifier design. Not only does the HexID color identification system eliminate the messy task of adding paint or tape, it can be changed in less than a minute. Finding a particular magazine in a mag pouch, gear bag or a storage cabinet has never been easier. The colors may be bright but you can be assured you're not hanging Christmas lights on your rifle. The HexID blends in perfectly with your lifestyle either at the range or in the woods. HexID is the perfect complement for three gun competitions, prepper storage, law enforcement officers and anyone who uses more than one brand of ammunition or multiple caliber rifles. High visibility, easy to see colors in critical situations. Why risk your gun, your life, your reputation, or family by loading the wrong ammunition.

## Attributes

- Name: [HEXMAG HEXID COLOR IDENTIFICATION SYSTEM RED 2-PK](#)
- Manufacturer: [HEXMAG](#)
- Product no.: 100019846
- Mfr. No.: HXID2-AR-RED
- Weapon type: AR-15
- Quantity: 2
- Delivery weight: 0.034kg
- Shipping height: 13mm
- Shipping width: 114mm
- Shipping length: 248mm
- UPC: 085992200546

# HEXID Color Identification System Safety Instructions

## Introduction

Thank you for choosing the HEXID Color Identification System. This product is designed to enhance your shooting experience by providing a simple and effective way to identify your magazines. Please read this safety instruction guide carefully to ensure safe usage and compliance with EU safety regulations.

## General Safety Guidelines

- Always ensure that your firearm is unloaded when installing or adjusting the HEXID Color Identification System.
- Use the HEXID Color Identification System only with compatible magazines.
- Keep the HEXID Color Identification System out of reach of children and vulnerable individuals.
- Regularly inspect the HEXID Color Identification System for wear and damage. Replace if necessary.
- Report any unsafe products or accidents to local authorities and check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the colors used in the HEXID Color Identification System are clearly visible and distinguishable in various lighting conditions.
- Do not use the HEXID Color Identification System while the firearm is in a condition that can cause accidental discharge.
- Avoid using the HEXID Color Identification System in environments where it may interfere with other safety equipment or gear.
- Be aware of your surroundings when using firearms equipped with the HEXID Color Identification System to avoid confusion with other colored items.

## Instructions for Installation and Usage

### 1. Installation:

- Start with an unloaded magazine.
- Clean the surface of the magazine where the HEXID Color Identification System will be applied.
- Carefully peel off the backing of the HEXID Color Identification System and apply it to the magazine, ensuring it adheres firmly.
- Allow the adhesive to set for a few moments before handling the magazine.

### 2. Usage:

- Identify your magazines by their assigned colors when loading or unloading ammunition.
- If you need to change the color, simply peel off the existing HEXID Color Identification System and follow the installation instructions above.
- Ensure that you do not mix different colored identifiers to avoid confusion.

## Disposal Instructions

- Dispose of the HEXID Color Identification System responsibly in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste; check for recycling options for plastic materials.

- Ensure that all components are out of reach of children and pets when disposing of the product.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the HEXID Color Identification System, please refer to the product packaging for the appropriate contact information and support resources.

By following these guidelines, you can ensure the safe and effective use of the HEXID Color Identification System. Thank you for prioritizing safety in your shooting activities.
