

# HEXID COLOR IDENTIFICATION SYSTEM - HEXMAG HEXID COLOR IDENTIFICATION SYSTEM BLACK 2-PK

[Magazines](#) > [Rifle Magazines](#) > [Magazine Parts](#) > [Magazine Followers](#)

Over the years Hexmag has marked their magazines using many different methods such as tape and paint. They found that colored electrical tape made the magazine marking stand out when viewed from a distance. There was no need to check letters, numbers or other text, the colored tape worked just fine as an ammo identifier. The HexID Color Identification System is based on the principle that color is the simplest way to mark your magazines. So they incorporated color into our ammo identifier design. Not only does the HexID color identification system eliminate the messy task of adding paint or tape, it can be changed in less than a minute. Finding a particular magazine in a mag pouch, gear bag or a storage cabinet has never been easier. The colors may be bright but you can be assured you're not hanging Christmas lights on your rifle. The HexID blends in perfectly with your lifestyle either at the range or in the woods. HexID is the perfect complement for three gun competitions, prepper storage, law enforcement officers and anyone who uses more than one brand of ammunition or multiple caliber rifles. High visibility, easy to see colors in critical situations. Why risk your gun, your life, your reputation, or family by loading the wrong ammunition.

## Attributes

- Name: [HEXMAG HEXID COLOR IDENTIFICATION SYSTEM BLACK 2-PK](#)
- Manufacturer: [HEXMAG](#)
- Product no.: 100019847
- Mfr. No.: HXID2ARBLK
- Weapon type: AR-15
- Quantity: 2
- Delivery weight: 0.036kg
- Shipping height: 19mm
- Shipping width: 114mm
- Shipping length: 241mm
- UPC: 085992200539

# HEXID Color Identification System Safety Instructions

## Introduction

Thank you for choosing the HEXID Color Identification System. This product is designed to help you easily identify your ammunition magazines by using color coding. It is important to follow the safety guidelines and instructions provided in this manual to ensure safe and effective use of the product.

## General Safety Guidelines

- Always ensure that your firearm is unloaded before handling or installing the HEXID Color Identification System.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the HEXID system for wear or damage. Replace any damaged components immediately.
- Do not use the HEXID Color Identification System with any magazine that is not compatible with your firearm.
- Familiarize yourself with the specific ammunition requirements of your firearm to avoid using incorrect ammunition.

## Specific Safety Precautions for Use

- The HEXID Color Identification System is intended for use only with nonfood products. Do not attempt to use it for any other purpose.
- Avoid using the HEXID system in extreme weather conditions, as this may affect the visibility and durability of the colors.
- Ensure that the colorcoded identifiers are securely attached to the magazines before use to prevent them from detaching during handling.
- In critical situations, always doublecheck the color coding to confirm that you are using the correct ammunition.

## Instructions for Installation and Usage

### 1. Installation:

- Select the appropriate color identifier based on your ammunition type.
- Clean the surface of the magazine where the identifier will be applied to ensure proper adhesion.
- Carefully attach the color identifier to the magazine, ensuring it is firmly in place.

### 2. Usage:

- When storing or transporting your magazines, ensure that the color identifiers are visible for easy identification.
- If you need to change the color identifier, simply remove the old one and follow the installation instructions above for the new color.

## Disposal Instructions

- Dispose of the HEXID Color Identification System responsibly. Follow local regulations for the disposal of nonhazardous materials.
- If the product is damaged or no longer needed, consider recycling components where applicable.

## **Contact Information for Further Support**

For any questions or concerns regarding the HEXID Color Identification System, please reach out to your local distributor or retailer for assistance. It is important to ensure that you have access to support for any safety inquiries.

By following these guidelines and instructions, you can ensure the safe use of the HEXID Color Identification System. Your safety and the safety of those around you is our top priority. Thank you for your attention to these important safety measures.
