

MICRO-ADJUSTABLE TAPER CRIMP DIES - REDDING ADJUSTABLE TAPER CRIMP DIE 38 SUPER/9MM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Top-adjusting dies save time and aggravation by eliminating the need to remove the die from the press in order to adjust the bullet crimp - perfect for high-volume, progressive reloaders. Knurled micrometer-type barrel gives you approximately $\pm .100$ " adjustment after the initial setup. No more guessing if your crimp is at the right place or having to loosen everything up to guess again. Innovative internal sleeve of hardened steel forms the crimp. Sleeve is double-ended, with a specific taper at each end, so it can be flipped around to crimp a second, related-size cartridge.

Safety Instruction Guide for Redding Adjustable Taper Crimp Die 38 Super/9mm

Introduction

Thank you for choosing the Redding Adjustable Taper Crimp Die 38 Super/9mm. This guide provides essential safety instructions and usage guidelines to ensure the safe and effective operation of this product. Please read this document carefully before use.

General Safety Guidelines

- Ensure that the die is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Keep the work area clean and organized to prevent accidents.
- Store the die in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the die for signs of wear or damage before each use.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the die only with compatible cartridges (9 mm Luger).
- Do not exceed the recommended adjustments as specified in the product manual.
- Avoid using excessive force when making adjustments to prevent damage to the die.
- Ensure that the press is securely mounted and stable before use.
- Do not attempt to modify the die or use it for purposes other than intended.
- Keep hands and other body parts clear of moving parts while operating the press.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is clean and free from debris.
- Securely mount the Redding Adjustable Taper Crimp Die in the reloading press according to the manufacturer's instructions.
- Check that the die is properly aligned with the cartridge case holder.

2. Adjusting the Crimp

- Use the knurled micrometertype barrel to make adjustments to the bullet crimp.
- Make small adjustments of approximately $\pm .100$ " as needed.
- After initial setup, verify the crimp adjustment by testing with dummy rounds before live ammunition.

3. Using the Die

- Insert the cartridge case into the holder and activate the press to crimp the bullet.
- Monitor the crimping process closely to ensure consistent results.
- If adjustments are necessary, repeat the adjustment process as outlined above.

4. PostUse Care

- Clean the die after each use to remove any residue or debris.
- Store the die in a protective case or original packaging to prevent damage.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check for recycling options or hazardous waste disposal facilities in your area.

Contact Information for Further Support

For any inquiries regarding the safety and use of the Redding Adjustable Taper Crimp Die, please consult the manufacturer's website or customer service for assistance.

By following these guidelines, you can ensure the safe and effective use of your Redding Adjustable Taper Crimp Die 38 Super/9mm. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for your attention to these important safety instructions.
