

# **MICRO-ADJUSTABLE TAPER CRIMP DIES - REDDING ADJUSTABLE TAPER CRIMP DIE 40S&W/10MM**

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Top-adjusting dies save time and aggravation by eliminating the need to remove the die from the press in order to adjust the bullet crimp - perfect for high-volume, progressive reloaders. Knurled micrometer-type barrel gives you approximately  $\pm .100"$  adjustment after the initial setup. No more guessing if your crimp is at the right place or having to loosen everything up to guess again. Innovative internal sleeve of hardened steel forms the crimp. Sleeve is double-ended, with a specific taper at each end, so it can be flipped around to crimp a second, related-size cartridge.

## **Attributes**

- Name: [REDDING ADJUSTABLE TAPER CRIMP DIE 40S&W/10MM](#)
- Manufacturer: [REDDING](#)
- Product no.: 100020361
- Mfr. No.: 31253
- Cartridge: 40 S&W,10 mm Auto
- Die Style: Crimp Die
- Delivery weight: 0.454kg
- Shipping height: 40mm
- Shipping width: 112mm
- Shipping length: 152mm
- UPC: 611760312533

# MICROADJUSTABLE TAPER CRIMP DIES SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the MICROADJUSTABLE TAPER CRIMP DIES by REDDING. This product is designed for highvolume, progressive reloaders who require precise adjustments for bullet crimping. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure safe handling and use of all nonfood products, including this die set.
- Be aware of potential risks associated with reloading ammunition and follow all safety precautions.
- Check for recall updates on the EU's Safety Gate platform to stay informed about any safety issues related to this product.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always wear appropriate safety equipment, including safety glasses and gloves, when using reloading equipment.
- Keep the work area clean and free from distractions to minimize the risk of accidents.
- Ensure that the die is securely installed in the press before use to prevent any movement during operation.
- Do not exceed the recommended bullet crimp specifications to avoid potential damage or malfunction.
- Be cautious when adjusting the die. Make small adjustments and test the crimp to ensure accuracy.
- Ensure that the die is used only for its intended purpose and with compatible cartridges (10 mm Auto, 40 S&W).
- Keep out of reach of children and unauthorized users.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the die to the reloading press according to the manufacturer's instructions.
- Ensure the die is firmly tightened to prevent any movement during operation.

### 2. Adjustment:

- Use the knurled micrometertype barrel to make adjustments. You can adjust the crimp approximately  $\pm .100"$  after the initial setup.
- Make small adjustments and test the crimp on a dummy round before proceeding with live ammunition.
- Flip the doubleended sleeve to crimp a second, relatedsize cartridge if needed.

### 3. Usage:

- Follow all reloading guidelines provided by your press and bullet manufacturer.
- Monitor the crimping process closely to ensure consistent results.
- If any issues arise during use, stop and inspect the die and the reloading press for potential problems.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Ensure that all waste material is disposed of safely to minimize environmental impact.

## Contact Information for Further Support

For any safety inquiries or support related to the MICROADJUSTABLE TAPER CRIMP DIES, please contact the manufacturer directly. Ensure you have the product details ready when seeking assistance.

Thank you for prioritizing safety while using the MICROADJUSTABLE TAPER CRIMP DIES. Your careful attention to these guidelines will help ensure a safe and successful reloading experience.
