

MICRO-ADJUSTABLE TAPER CRIMP DIES - REDDING ADJUSTABLE TAPER CRIMP DIE 45 ACP/GAP

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Top-adjusting dies save time and aggravation by eliminating the need to remove the die from the press in order to adjust the bullet crimp - perfect for high-volume, progressive reloaders. Knurled micrometer-type barrel gives you approximately $\pm .100$ " adjustment after the initial setup. No more guessing if your crimp is at the right place or having to loosen everything up to guess again. Innovative internal sleeve of hardened steel forms the crimp. Sleeve is double-ended, with a specific taper at each end, so it can be flipped around to crimp a second, related-size cartridge.

Attributes

- Name: [REDDING ADJUSTABLE TAPER CRIMP DIE 45 ACP/GAP](#)
- Manufacturer: [REDDING](#)
- Product no.: 100020362
- Mfr. No.: 31189

Safety Instruction Guide for MICROADJUSTABLE TAPER CRIMP DIES

Introduction

Thank you for choosing the MICROADJUSTABLE TAPER CRIMP DIES by REDDING. This guide provides essential safety instructions and usage information to ensure safe handling and operation of this product. Please read this guide thoroughly before use.

General Safety Guidelines

- Ensure that all users are familiar with the product and its intended use.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using reloading equipment.
- Keep the work area clean and welllit to prevent accidents.
- Store the product in a dry, secure location away from children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.

Specific Safety Precautions for Use

- Only use the MICROADJUSTABLE TAPER CRIMP DIES with compatible cartridges (45 Auto (ACP), 45 G.A.P).
- Do not exceed the manufacturer's recommended settings for crimp adjustment.
- Avoid making adjustments to the die while it is mounted on the press to prevent injury.
- Ensure that the press is securely mounted and stable before beginning any reloading operation.
- Never leave the press unattended while in operation.
- Be cautious of hot materials and components during and after use.

Instructions for Installation and Usage

Installation

1. Mounting the Die:

- Securely attach the die to your reloading press according to the manufacturer's instructions.
- Ensure that the die is properly aligned with the press to avoid misfires or accidents.

2. Initial Setup:

- Follow the instructions provided with the die for the initial setup.
- Make necessary adjustments using the knurled micrometertype barrel for bullet crimp settings.

Usage

1. Reloading Procedure:

- Start by preparing your cartridge cases and ensuring they are clean and free of obstructions.
- Insert the cartridge case into the press and engage the die to apply the crimp.
- Monitor the crimping process closely, making adjustments as necessary using the micrometer for precise control.

2. Adjustment:

- To adjust the crimp, loosen the locking mechanism and turn the micrometer as needed.

- Once the desired crimp is achieved, retighten the locking mechanism to secure the setting.

3. Crimping a Second Cartridge:

- If needing to crimp a second, related size cartridge, carefully flip the sleeve to utilize the alternate taper.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check with local waste management for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the MICROADJUSTABLE TAPER CRIMP DIES, please refer to the manufacturer's website or customer service for assistance.

Conclusion

By following these safety instructions, you can help ensure a safe and effective reloading experience with the MICROADJUSTABLE TAPER CRIMP DIES. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important safety guidelines.
