

# TSR PICATINNY SCOPE RINGS - TPS PRODUCTS 34MM LOW (1.025") STEEL RINGS

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Scope Rings](#)

## Super Holding Power, Precision Alignment

TSR Series Rings, precisely machined from an aluminum billet, with tolerances held to .0002", give maximum scope/ring contact. Holds scope securely against recoil. Four-screw cap lets you align the reticle, tighten the left side of the cap, then the right side without the scope rotating. Radiused edges and corners help prevent snagging while providing attractive appearance. Large, clamp-nut lets you torque rings to Mil-STD 1913 (Picatinny) bases.

## Attributes

- Name: [TPS PRODUCTS 34MM LOW \(1.025"\) STEEL RINGS](#)
- Manufacturer: [TPS PRODUCTS](#)
- Product no.: 100020386
- Mfr. No.: 30590
- Finish: -
- Height: 1.025"
- Material: Steel
- Scope Tube Diameter: 34mm
- Size: Low
- Style: Steel
- Delivery weight: 0.259kg
- Shipping height: 57mm
- Shipping width: 57mm
- Shipping length: 91mm
- UPC: 071611305907

# TSR Picatinny Scope Rings Safety Instruction Guide

## Introduction

Thank you for purchasing the TSR Picatinny Scope Rings by TPS Products. These scope rings are designed to provide a secure and stable mounting solution for your scope, ensuring optimal performance during use. This guide contains important safety instructions and guidelines to help you use the product safely and effectively.

## General Safety Guidelines

- Always read and follow the manufacturer's instructions before use.
- Ensure that the scope rings are compatible with your scope and firearm.
- Inspect the scope rings for any signs of damage before installation.
- Store the scope rings in a dry, cool place to prevent corrosion or damage.
- Keep the scope rings out of reach of children and vulnerable individuals.

## Specific Safety Precautions for Use

- **Recoil Management:** Ensure that the scope is securely mounted to prevent movement during recoil, which can lead to misalignment or damage.
- **Proper Tightening:** Use the fourscrew cap to tighten the rings. Tighten the left side first, followed by the right side to ensure proper alignment without rotating the scope.
- **Avoid OverTorquing:** Do not exceed the recommended torque specifications when tightening the rings to avoid damaging the scope or the rings.
- **Regular Checks:** Periodically check the tightness of the scope rings, especially after heavy use or transport.
- **Use Protective Gear:** When handling tools for installation, wear appropriate safety gear such as gloves and eye protection.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including a torque wrench and appropriate screwdrivers.
- Ensure the firearm is unloaded and pointed in a safe direction.

### 2. Installation:

- Place the scope rings on the Picatinny rail of your firearm.
- Align the scope in the rings, ensuring the reticle is level.
- Use the fourscrew cap to secure the scope in place.
- Tighten the left side screw first, followed by the right side screw, checking for alignment as you go.
- Use a torque wrench to tighten the screws to the recommended specifications.

### 3. Usage:

- After installation, check the alignment of the scope and make any necessary adjustments.
- Always ensure the firearm is safe to handle when making adjustments or checks.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- If the scope rings are damaged or no longer usable, recycle the materials if possible.
- Do not dispose of the product in household waste.

## **Contact Information for Further Support**

For any inquiries regarding safety, installation, or product concerns, please contact the manufacturer directly. Ensure that you have the product information available for reference.

By following these guidelines, you can ensure safe and effective use of your TSR Picatinny Scope Rings. Thank you for prioritizing safety in your shooting activities.
