

# AR-15 CLAMP ON ADJUSTABLE GAS BLOCK - SUPERLATIVE ARMS

## AR-15 CLAMP ON ADJUSTABLE GAS BLOCK .936" BLACK

[Rifle Parts](#) > [Gas System Parts](#) > [Gas Blocks](#)

The Superlative Arms patented "Bleed Off", direct impingement, gas block for the AR15 platform adjusts the gas flow by bleeding the gas out of the block instead of restricting the flow like conventional adjustable blocks. Results: The pressure used in the block is reduced only to the amount required to drive the bolt carrier. The remaining gas / pressure are bled out of the block allowing the system to run much cleaner and cooler. Reduction of felt recoil. Patented adjustment detent is located outside of the block and therefore no contamination. The gas adjustment screw does not restrict the gas flow; therefore there is no erosion or seizing of the screw / no loss of detent due to carbon build up. Although it is removable, we have added a safety mechanism, which stops you from unintentionally backing the screw all the way out. When using SBR's and / or suppressors the bleed off port allows the excessive pressure to be exhausted out of the block reducing blow back.

Data: Gas Block Material: 416 SS Barrel Diameter: 0.625" Weight: 1.34 oz.

Length: 1.00" Attachment Type: Clamp on Adjustment: Front of Block

Included: Gas Block - Assembled (2) 10-32 x 3/16" Socket Head Cap Screws

(1) Gas Tube Roll Pins (1) 3/32 X 6" L-Shaped Hex Keys Installation

### Attributes

- Name: [SUPERLATIVE ARMS AR-15 CLAMP ON ADJUSTABLE GAS BLOCK .936" BLACK](#)
- Manufacturer: [SUPERLATIVE ARMS](#)
- Product no.: 100020579
- Mfr. No.: SABO-DI-936CM
- Inside Diameter: .936
- Material: Stainless Steel
- Style: Adjustable,Clamp-On
- Weapon type: AR-15
- Delivery weight: 0.091kg
- Shipping height: 51mm
- Shipping width: 76mm
- Shipping length: 178mm
- UPC: 850011846124

### Item details

Made in USA

US export classification: 0A501.x

# Safety Instruction Guide for AR15 Clamp On Adjustable Gas Block

## Introduction

Thank you for choosing the Superlative Arms AR15 Clamp On Adjustable Gas Block. This guide provides essential safety instructions, installation details, and usage precautions to ensure safe and effective operation of your gas block. Please read this guide carefully before use.

## General Safety Guidelines

- Ensure that the gas block is installed by a qualified gunsmith or experienced individual.
- Always wear appropriate safety gear, including eye protection, when handling firearms.
- Keep the area clear of unauthorized personnel, especially children, during installation and use.
- Do not use the gas block if it appears damaged or malfunctioning.
- Regularly inspect the gas block for wear and tear, and replace it if necessary.
- Follow all local laws and regulations regarding firearm modifications and usage.

## Specific Safety Precautions for Use

- The gas block is designed for use with AR15 platform rifles only. Do not use it on incompatible firearms.
- When adjusting the gas flow, make sure the firearm is unloaded and pointed in a safe direction.
- Avoid adjusting the gas block while the firearm is hot to prevent burns.
- If using with SBRs or suppressors, be aware of potential increased back pressure and adjust accordingly.
- Be cautious of the bleedoff port during operation, as gas can escape and may cause irritation if inhaled.
- Ensure that the adjustment screw is securely fastened to prevent accidental dislodging during use.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing gas block if applicable, following the manufacturer's instructions.
- Clean the barrel area where the gas block will be installed.
- Position the Superlative Arms gas block onto the barrel, ensuring proper alignment.
- Use the provided (2) 1032 x 3/16" socket head cap screws to secure the gas block in place.
- Tighten the screws evenly to the manufacturer's recommended torque specifications.
- Install the gas tube roll pins as per the installation instructions.
- Use the provided 3/32 x 6" Lshaped hex keys for adjustments.

### 2. Usage:

- After installation, adjust the gas flow using the adjustment screw. Turn clockwise to reduce gas flow and counterclockwise to increase gas flow.
- Test the gas block with a few rounds to ensure proper function and adjust as necessary.
- Monitor the firearm for signs of excessive recoil or malfunctioning operation, which may indicate the need for further adjustment.

## Disposal Instructions

- Dispose of the gas block in accordance with local regulations regarding metal and firearm components.
- Do not dispose of the gas block in regular household waste.
- Consider recycling the material if possible.

## **Contact Information for Further Support**

For questions or concerns regarding the installation, use, or safety of the Superlative Arms AR15 Clamp On Adjustable Gas Block, please contact your local dealer or manufacturer.

## **Conclusion**

The Superlative Arms AR15 Clamp On Adjustable Gas Block is designed to enhance your shooting experience while maintaining safety. By following the guidelines outlined in this manual, you can ensure safe operation and effective performance of your gas block. Thank you for your attention to safety and responsible firearm handling.
