

# AR-15 LOW PROFILE GAS BLOCKS - FAXON FIREARMS LOW PROFILE .750 GAS BLOCK 3-SCREW FOR AR-15

[Rifle Parts](#) > [Gas System Parts](#) > [Gas Blocks](#)

Perfect for any rail system, these ultra-low profile gas blocks are the ideal companion for Faxon Firearms (or any other) barrels with a standard diameter gas journal. Made from high-strength steel, all Faxon gas blocks are a matching black luster to their barrels. For lightweight builds, the block is drilled through the middle of the profile. The gas block clamps on to the barrel using 3 allen keys on the bottom of the block. Faxon Firearms highly recommends the use of Loc-Tite or similar thread-locking compounds. Gas blocks will get very hot, so pick a compound according to your intended use of the firearm.

## Attributes

- Name: [FAXON FIREARMS LOW PROFILE .750 GAS BLOCK 3-SCREW FOR AR-15](#)
- Manufacturer: [FAXON FIREARMS](#)
- Product no.: 100022859

# AR15 Low Profile Gas Blocks Safety Instruction Guide

## Introduction

Thank you for choosing the Faxon Firearms Low Profile .750 Gas Block for your AR15. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this document thoroughly before installation and use.

## General Safety Guidelines

- Ensure you are familiar with the operation of your firearm before using the gas block.
- Always follow the manufacturer's instructions for your firearm and gas block.
- Use caution when handling firearms, especially when they are loaded.
- Store the gas block and all firearm components in a secure location, out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when working with firearms.
- Be aware that gas blocks can become very hot during operation. Use caution to avoid burns.
- Ensure that the gas block is securely installed before using the firearm.
- Use Loctite or similar threadlocking compounds as recommended to prevent loosening during use.
- Regularly inspect the gas block for signs of wear or damage before each use.

## Instructions for Installation and Usage

### Installation

#### 1. Gather Required Tools:

- Allen keys (3)
- Loctite or similar threadlocking compound
- Torque wrench (if applicable)

#### 2. Prepare the Barrel:

- Ensure the firearm is unloaded and the barrel is clean.
- Remove any existing gas block if necessary.

#### 3. Position the Gas Block:

- Align the gas block with the gas port on the barrel.
- Ensure that the gas block is positioned correctly for your rail system.

#### 4. Secure the Gas Block:

- Apply Loctite or a similar threadlocking compound to the screws.
- Use the allen keys to tighten the screws on the bottom of the gas block.
- Ensure the screws are tightened evenly and securely.

#### 5. Final Inspection:

- Check that the gas block is firmly attached and that there are no gaps between the gas block and the barrel.

## **Usage**

- After installation, conduct a function check to ensure the gas block operates correctly with your firearm.
- Regularly clean and maintain the gas block according to the manufacturer's recommendations.

## **Disposal Instructions**

- Dispose of any damaged or unusable gas blocks in accordance with local regulations.
- Do not dispose of the gas block in regular household waste. Instead, consult your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the installation or use of your Faxon Firearms Low Profile Gas Block, please refer to the manufacturer's website or contact their customer support team.

Thank you for your attention to these safety guidelines. Enjoy your shooting experience safely and responsibly.
