

1911 EXTREME SERVICE RETRO THUMB SAFETY - HARRISON DESIGN & CONSULTING 1911 EXTREME SERVICE RETRO THUMB SAFETY SS

[Handgun Parts](#) > [Safety Parts](#) > [Safeties](#)

The H-D Retro thumb safety family is the result of years of design and testing to develop a thumb safety that is ergonomically comfortable, rugged in construction and offers unique features that solve many of the problems with existing designs. The Retro thumb safety was developed to answer customer requests for a version of our original thumb safety with a small shelf that looked appropriate on a Classic or Retro 1911. The positioning of the thumb shelf also helps keep the palm of your hand in deeper, more solid contact with the grip safety, so it's less likely that you'll have a failure to get the grip safety depressed and then keep it depressed, which could render your pistol unfireable at the worst time. The plate is made thicker than most other brands and is configured so that the safety plunger bears fully on the front of the plate, eliminating side thrust loading from being exerted against your plunger tube which can eventually loosen the tube's mounting, allowing the plunger pin to climb over the safety's plate, potentially rendering the gun unfireable. An ample detent pocket and radius give a positive "click" as you move the safety on and off. The pivot shaft joins the plate with a generous radius which is crucial to prevent stress breakage of the plate/shaft joint as found on other brands. The blocking lug has an extra fitting pad on the rear of the lug allowing the gunsmith to regulate how far down the thumb safety can swing, which keeps the safety's plate from overhanging the edge of the frame. An industry first! The rear edge of the plate is beveled and blended where it meets the back edge of the frame, a feature lacking on other brands.

Attributes

- Name: [HARRISON DESIGN & CONSULTING 1911 EXTREME SERVICE RETRO THUMB SAFETY SS](#)
- Manufacturer: [HARRISON DESIGN & CONSULTING](#)
- Product no.: 100022959
- Mfr. No.: HD-456
- Finish: Stainless Steel
- Style: Retro
- Weapon type: 1911
- Delivery weight: 0.016kg
- Shipping height: 25mm
- Shipping width: 89mm
- Shipping length: 152mm

Safety Instruction Guide for 1911 EXTREME SERVICE RETRO THUMB SAFETY

Introduction

Thank you for choosing the 1911 EXTREME SERVICE RETRO THUMB SAFETY by Harrison Design & Consulting. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this document carefully to understand the safety guidelines, installation procedures, and proper usage of your thumb safety.

General Safety Guidelines

- Ensure that the thumb safety is installed correctly and securely before using your firearm.
- Regularly inspect the thumb safety for any signs of wear or damage.
- Only use the thumb safety with compatible 1911 models.
- Keep the firearm and thumb safety out of reach of children and unauthorized users.
- Always follow safe handling practices for firearms, including keeping the muzzle pointed in a safe direction and keeping your finger off the trigger until ready to shoot.
- Report any unsafe products or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the thumb safety is fully engaged when the firearm is not in use to prevent accidental discharge.
- Do not attempt to modify the thumb safety or any other firearm components without professional assistance.
- Be aware of the thumb safety's position and functionality during operation to avoid mishandling.
- If you notice any malfunction or irregular operation of the thumb safety, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Installation

- Ensure your firearm is unloaded and safe to handle.
- Remove the existing thumb safety from your 1911 model, following the manufacturer's instructions.
- Align the Retro thumb safety with the mounting points on your firearm.
- Securely attach the thumb safety, ensuring that it is properly seated and functions smoothly.
- Test the thumb safety by engaging and disengaging it several times to ensure proper operation.

2. Usage

- To engage the thumb safety, push it upwards until you hear a positive click.
- To disengage the thumb safety, push it downwards until it clicks into the off position.
- Always verify that the thumb safety is in the correct position before handling or firing the firearm.

Disposal Instructions

- Dispose of any damaged or nonfunctional thumb safety components in accordance with local regulations.
- Ensure that all firearm components are disposed of safely to prevent unauthorized use.

Contact Information for Further Support

For any inquiries regarding the safety and performance of the 1911 EXTREME SERVICE RETRO THUMB SAFETY, please refer to the contact information provided by the retailer or manufacturer where you purchased the product.

Thank you for your attention to these safety guidelines. Your safety and the safety of others depend on your careful use of this product.
