# Safety Instruction Guide for EXTRACTOR PLUNGER SPRING KE ARMS

## Introduction

Thank you for choosing the EXTRACTOR PLUNGER SPRING by KE ARMS. This aftermarket Glock extractor plunger spring is designed to enhance the performance of your firearm. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always handle all firearm components with care and respect.
- Ensure that you are using the correct parts for your specific Glock model (39, 17, 19, 22, 23, 34, 26, 27, 31, 32, 33).
- Be aware of your surroundings and ensure that the area is safe when working with firearm components.
- Store the product in a safe place, away from children and unauthorized users.
- Regularly check for any signs of wear or damage to the spring. If any issues are found, discontinue use immediately.

## Specific Safety Precautions for Use

- Do not attempt to install or use the extractor plunger spring if you are not familiar with firearm assembly and disassembly.
- Always wear appropriate safety gear, including eye protection, when handling firearm components.
- Ensure the firearm is unloaded and the chamber is clear before replacing or installing any parts.
- Avoid using excessive force when installing the spring, as this may cause damage to the component or the firearm.
- If you experience any difficulties during installation, consult a qualified gunsmith for assistance.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure that your Glock is unloaded and the magazine is removed.
- Gather the necessary tools, including a punch tool and a small hammer.

### 2. Disassembly

- Remove the slide from the frame according to the manufacturer's instructions.
- Carefully remove the existing extractor plunger spring using the punch tool to push out the retaining pin.

### 3. Installation

- Take the new EXTRACTOR PLUNGER SPRING and align it with the extractor plunger.
- Gently insert the new spring into the designated area where the old spring was removed.
- Use the punch tool to secure the retaining pin back into place, ensuring the spring is correctly seated.

### 4. Reassembly

- Reattach the slide to the frame, ensuring all components are aligned properly.
- Perform a function check to ensure that the firearm operates correctly with the new spring

installed.

## 5. Testing

- Conduct a safety test by dry firing the firearm in a safe environment to ensure proper function.
- If any malfunctions occur, consult a qualified gunsmith immediately.

## Disposal Instructions

- Dispose of any old or damaged springs and components in accordance with local regulations.
- Ensure that all parts are removed from the reach of children and unauthorized users.
- Consider recycling the materials if possible, following local guidelines for metal disposal.

## Contact Information for Further Support

For any safety inquiries or further assistance regarding the EXTRACTOR PLUNGER SPRING, please contact the manufacturer directly through their official channels.

## Conclusion

Following these safety instructions will help ensure the safe and effective use of the EXTRACTOR PLUNGER SPRING by KE ARMS. Always prioritize safety and consult a professional if you have any doubts or questions. Thank you for your attention to these important guidelines.
