# Safety Instruction Guide for EXTRACTOR PLUNGER BEARING KE ARMS EXTRACTOR PLUNGER BEARING, 9MM

## Introduction

Thank you for choosing the EXTRACTOR PLUNGER BEARING by KE ARMS. This aftermarket Glock extractor plunger bearing is designed for specific Glock models, ensuring optimal performance and reliability. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure that you are using the correct model of the product for your Glock firearm (Models: 17, 19, 22, 23, 34, 26, 27, 31, 32, 33, 40).
- Always handle firearms and firearm components with care. Follow all safety protocols associated with firearm use.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the bearing for wear and tear to avoid potential malfunctions.
- In case of any doubts regarding the product's safety or performance, consult a qualified gunsmith or firearm expert.

## Specific Safety Precautions for Use

- Do not use the extractor plunger bearing if it shows signs of damage or wear.
- Ensure that the firearm is unloaded before installation or maintenance of the extractor plunger bearing.
- Wear safety glasses when working on firearms to protect your eyes from debris.
- Always follow the manufacturer's instructions for your specific Glock model when installing the bearing.
- Avoid using excessive force during installation to prevent damage to the bearing or the firearm.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools (e.g., screwdriver, punch tool) for installation.

### 2. Installation Steps:

- Remove the slide from the Glock firearm according to the manufacturer's instructions.
- Locate the extractor plunger bearing in the slide assembly.
- Carefully remove the old bearing, if applicable, using a punch tool.
- Insert the new EXTRACTOR PLUNGER BEARING into the designated slot in the slide.
- Ensure that the bearing is seated correctly and securely.
- Reassemble the slide onto the firearm, ensuring all components are aligned properly.

### 3. PostInstallation Checks:

- Conduct a function check of the firearm to ensure proper operation.
- Inspect the installation area for any loose parts or misalignments.
- Store the firearm in a secure location when not in use.

## **Disposal Instructions**

- Dispose of any old or damaged extractor plunger bearings in accordance with local regulations regarding electronic and mechanical waste.
- Do not throw the product in regular household waste. Instead, seek out local recycling facilities that accept such materials.

## **Contact Information for Further Support**

For any inquiries regarding the EXTRACTOR PLUNGER BEARING or to report unsafe products and accidents, please refer to the appropriate consumer safety authorities or your local firearms expert. Always stay informed about safety recalls and updates through the EU's Safety Gate platform.

By adhering to these safety guidelines and instructions, you can ensure the safe and effective use of the EXTRACTOR PLUNGER BEARING. Thank you for your attention to safety and for choosing KE ARMS products.
