SR15/SR16 Field Repair Kit Safety Instructions

Introduction

Thank you for choosing the SR15/SR16 Field Repair Kit. This kit includes essential components designed to keep your rifle operational over the long term. This guide provides important safety instructions and precautions to ensure safe and effective use of the kit. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the Field Repair Kit is used only with SR15/SR16 E3 platforms. It is not compatible with standard AR15 platforms.
- Always handle firearms and their components with care, following all applicable laws and regulations.
- Keep the Field Repair Kit out of reach of children and unauthorized users.
- Regularly inspect all components for wear and damage before use.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Before starting any repairs or maintenance, ensure that the firearm is unloaded and the chamber is clear.
- Wear appropriate safety gear, including eye protection, while handling firearm components.
- Follow the manufacturer's guidelines for installation and usage of each component in the Field Repair Kit.
- Be aware of sharp edges on components that may cause injury during handling.
- If you are unsure about any step in the repair process, seek assistance from a qualified professional.

Instructions for Installation and Usage

1. Preparation

- Ensure that your workspace is clean and welllit.
- Gather all necessary tools and components from the Field Repair Kit.

2. Component Installation

- **Ejector:** Remove the old ejector and replace it with the new one from the kit. Ensure it is securely fastened.
- **Ejector Roll Pin:** Insert the roll pin to secure the ejector in place.
- **Ejector Spring:** Replace the spring to ensure proper function.
- **Extractor:** Remove the old extractor and install the new extractor. Make sure it is seated properly.
- **Extractor Pivot Pin:** Insert the pivot pin to secure the extractor.
- **Extractor Springs (Heavy):** Replace both extractor springs.
- **Cam Pin:** Install the cam pin into the bolt carrier group.
- **Firing Pin:** Replace the firing pin, ensuring it is correctly positioned.
- **Firing Pin Retainer Pin:** Secure the firing pin with the retainer pin.
- **Gas Rings:** Replace all three gas rings to maintain proper gas seal.

3. PostInstallation Checks

- After installation, perform a visual inspection to ensure all components are installed correctly.
- Conduct a function check of the firearm to ensure it operates smoothly.

Disposal Instructions

- Dispose of any old or damaged components in accordance with local regulations.
- Ensure that all components are disposed of in a manner that prevents unauthorized access or use.

Contact Information for Further Support

For any questions or concerns regarding the SR15/SR16 Field Repair Kit, please refer to the manufacturer's customer support resources available on their website or product documentation.

Thank you for your attention to these safety instructions. Your safety and the proper functioning of your firearm are our top priorities.
