## **New-Manufactured Replacements For Correct Fit & Performance in Classic High Standard Pistols**

High Standard .22 LR 10-Round replacement magazines are carefully manufactured to the correct specifications for your High Standard pistol. With an improved feed lip design, High Standard .22 LR 10-Round replacement magazines will deliver smooth, reliable performance. All-steel mag tube with welded-on steel base plate Blued finish matches your classic pistol. High-visibility red plastic follower instantly verifies mag "loaded" vs "clear" status. May require minor fitting to the ejector of your particular pistol to ensure full insertion into magwell. A semi-auto pistol is only as reliable as its magazines, so why compromise the performance of your classic High Standard pistol? With a few extra .22 LR 10-Round replacement magazines on hand, you can spend less time reloading or trying to coax old, worn out mags to feed properly, and more time shooting. NOTE: Duramatic 10-round magazine fits original High Standard Duramatic pistol, as well as Plinker and Sears Model 80 - all chambered in .22 LR.

## **Attributes**

- Name: [INTERNATIONAL ARMAMENT CORP HIGH STANDARD MODEL 100,101,102,103,104 .22LR 10 RD BLUED](#)

# HIGH STANDARD 10ROUND MAGAZINES SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the High Standard 10Round Magazines manufactured by International Armament Corp. This guide provides essential safety instructions to ensure the safe use and handling of your magazines. Please read this document carefully before use.

## General Safety Guidelines

- Always treat every magazine as if it is loaded.
- Keep magazines out of reach of children and unauthorized users.
- Inspect magazines before use for any signs of damage or wear.
- Only use magazines that are specifically designed for your High Standard Model 100, 101, 102, 103, or 104 pistols.
- Follow all local laws and regulations regarding firearm and magazine use.

## Specific Safety Precautions for Use

- Ensure the magazine is properly seated in the magazine well before firing.
- Do not attempt to force a magazine into the magazine well if it does not fit easily.
- Avoid overloading the magazine beyond its 10round capacity.
- Be aware of your surroundings and ensure a safe shooting environment.
- Always wear appropriate eye and ear protection while shooting.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the pistol is unloaded and pointed in a safe direction.
- Align the magazine with the magazine well and gently push it into place until it clicks.
- Verify that the magazine is securely locked in place.

### 2. Usage:

- Load the magazine by inserting .22 LR cartridges into the magazine, ensuring they are seated properly.
- Check the highvisibility red plastic follower to confirm that the magazine is loaded.
- To remove the magazine, press the magazine release button and pull the magazine out of the magazine well.

### 3. Maintenance:

- Regularly clean the magazine to prevent debris buildup.
- Inspect the feed lips and follower for wear and damage.
- Store magazines in a cool, dry place to prevent rust or corrosion.

## Disposal Instructions

- Dispose of damaged or worn magazines in accordance with local regulations.
- Do not discard magazines in regular household waste.
- Contact your local waste management authority for proper disposal methods.

## Contact Information for Further Support

For safety inquiries or further assistance, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

## Conclusion

By following these safety instructions, you can ensure the safe and effective use of your High Standard 10Round Magazines. Remember to stay informed about any product recalls or safety updates through the EU's Safety Gate platform. Your safety is our priority. Enjoy your shooting experience responsibly.
