

AR-15 ULTRA-LIGHT EJECTION PORT COVER - V SEVEN WEAPON SYSTEMS AR-15 ULTRA-LIGHT EJECTION PORT COVER DESIGNER BLACK

[Rifle Parts](#) > [Receiver Parts](#) > [Ejection Port Cover Parts](#) > [Ejection Port Covers](#)

Shave Off a Little Extra Weight, Give Your Rifle a Unique Appearance

V Seven's AR-15 Ultra-Light Ejection Port Covers do the job of the original factory part but weigh half as much. They're made from 7075 T6 aluminum alloy and are at least 45% lighter than the mil-spec steel door. The exterior of the door is completely smooth, giving your rifle a clean, futuristic look. Three models to choose from: Classic: 8.3 grams Designer: 7.8 grams Air: 6.7 grams The Ultra-Light Ejection Port Cover has a durable, Type III hardcoat anodized finish to resist corrosion and comes with V Seven's Titanium plunger and stainless steel roll pin. Every bit of unnecessary weight on a tactical or competition rifle slows you down just a little more, so why not install a V Seven AR-15 Ultra-Light Ejection Port Cover and tilt the odds a little back in your favor?

Safety Instruction Guide for AR15 UltraLight Ejection Port Cover

Introduction

Thank you for choosing the V Seven AR15 UltraLight Ejection Port Cover. This product is designed to enhance the performance of your AR15 rifle while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use and maintain your new ejection port cover safely.

General Safety Guidelines

- Ensure that the product is used in accordance with all applicable laws and regulations.
- Always check your firearm's compatibility with the AR15 UltraLight Ejection Port Cover before installation.
- Inspect the product for any visible damage or defects before use.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the appropriate authorities immediately.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use the AR15 UltraLight Ejection Port Cover with compatible AR15 models.
- Avoid applying excessive force during installation to prevent damage to the cover or the firearm.
- Ensure that the ejection port cover is securely installed before using the firearm.
- Regularly inspect the ejection port cover for wear and tear, and replace it if necessary.
- Do not modify or alter the ejection port cover in any way.
- Always handle firearms safely and responsibly, following general firearm safety practices.

Instructions for Installation and Usage

1. Preparation:

- Gather the necessary tools for installation, including a suitable screwdriver.
- Ensure that your firearm is unloaded and pointed in a safe direction.

2. Installation Steps:

- Remove the existing ejection port cover from your AR15 by unscrewing the roll pin.
- Carefully install the V Seven UltraLight Ejection Port Cover in the same position.
- Use the provided stainless steel roll pin to secure the cover in place.
- Ensure that the cover operates smoothly by testing its opening and closing mechanism.

3. Usage:

- Once installed, the ejection port cover should function normally during the operation of your rifle.
- Regularly check the functionality of the cover, especially before and after use.

Disposal Instructions

- Dispose of the ejection port cover in accordance with local regulations regarding metal waste.
- Do not dispose of the product in regular household waste.
- Consider recycling the aluminum material if possible.

Contact Information for Further Support

For further assistance or inquiries, please refer to the manufacturer's website or contact their customer support team.

By following these guidelines, you can ensure the safe and effective use of your V Seven AR15 UltraLight Ejection Port Cover. Thank you for choosing our product, and we wish you safe shooting experiences.
