## Combines A Secure Grasp With Non-Snag Carry

Durable machined G10 fiberglass grips are almost impervious to solvents, moisture, and expansion/contraction due to temperature extremes. Five, deep, vertical grooves in each panel and fine-line diagonal texturing help you retain a solid grip on the pistol but won't snag like traditional checkering. Still allows a quick shift of grip for reloads, and also easier on clothes and your skin during carry. The "TS" grips feature a thumb scoop on the left hand panel that allows better access to the magazine catch. For shooters with short digits, this thumb scoop will make your magazine changes more certain. The HD-300-TS Carry Groove grips feature a beveled bottom. The HD-300-TS come equipped with the Thumb Scoop to give your thumb easier access to the magazine catch so you don't have to shift the gun in your grip as much during mag changes. The HD-303-TS Carry Groove grips feature a square bottom with no pin notch to match up to add-on mag wells. The HD-303-TS come equipped with the Thumb Scoop to give your thumb easier access to the magazine catch so you don't have to shift the gun in your grip as much during mag changes. HD-300-S-TS Slim Carry Groove Grips are a nominal .180" thick with the new Ambi-Vertable feature. The Ambi-Vertable pocket allows you to use the grips as they come out of the bag on your pistols with a strong-side only safety. If you have an ambi thumb safety, you can easily trim away the back wall with a sharp box cutter, opening the pocket up for your ambi safety.

Features Beveled Bottom and exposed pin notch.

# Safety Instruction Guide for 1911 Carry Groove Grips

## Introduction

Thank you for choosing the 1911 Carry Groove Grips by Harrison Design & Consulting. This guide provides essential safety information, usage instructions, and contact details for support. Please read this document carefully to ensure the safe and effective use of your product.

## General Safety Guidelines

- Ensure that the grips are compatible with your specific model of the 1911 pistol before installation.
- Inspect the grips for any visible damage or defects before use. Do not use if damaged.
- Keep grips out of reach of children and vulnerable individuals to prevent accidents.
- Always handle your firearm safely and responsibly, following all applicable laws and regulations.

## Specific Safety Precautions for Use

- Do not modify the grips beyond the recommended adjustments. Unauthorized modifications may compromise safety.
- Ensure that your hands are dry and clean when handling the grips to maintain a secure grip.
- Be mindful of the thumb scoop feature, as it may affect your grip position during magazine changes.
- When carrying your pistol, ensure that the grips do not snag on clothing or other objects.

## Instructions for Installation and Usage

### 1. Installation:

- Remove the existing grips from your 1911 pistol using a screwdriver or appropriate tool.
- Align the new Carry Groove Grips with the frame of the pistol, ensuring proper fit.
- Secure the grips in place using the original screws, tightening them gently but firmly.
- Check that the grips are securely attached and do not wobble.

### 2. Usage:

- Hold the pistol firmly with both hands, ensuring that your fingers are clear of the trigger until ready to shoot.
- Use the thumb scoop feature to access the magazine catch more easily. Practice magazine changes to become familiar with the grip.
- Regularly check the tightness of the grip screws to ensure they remain secure during use.

## Disposal Instructions

- Dispose of any damaged grips in accordance with local waste disposal regulations.
- If you are unsure about disposal methods, contact your local waste management authority for guidance.
