## **Speeds Lock Time, Helps Improve Accuracy**

The Tandemkross Firestarter Titanium Firing Pin for the Browning Buck Mark is 40% lighter than the steel factory pin, so it moves faster and hits the primer before the gun can move. OK, we'll be clear: Tandemkross Firestarter Titanium Firing Pin doesn't make your Browning Buck Mark any more accurate than it already is. But even the steadiest shooters impart slight movements to the gun, so the longer the time it takes to ignite the round after you get the sights aligned in the "sweet spot" on the target, the more likely a tiny movement of your hand diminish your accuracy. So faster lock time = better accuracy.

Drop-in replacement for factory firing pin Won't corrode Highly wear-resistant Pair up with Tandemkross Eagle's Talon extractor (#100-023-854, sold separately) Fits Browning buck Marks manufactured after model year 2000 Faster locktime isn't the only benefit of the Tandemkross Firestarter Firing Pin: Titanium is harder than steel, so it resists the "mushrooming" that afflicts firing pins after many thousands of strikes and can lead to unreliable ignition. The lower mass hitting the rim of the case also means less deformation of the casing and reduced risk of extraction problems.

# Tandemkross Browning Buck Mark "Fire Starter" Firing Pin Safety Instructions

## Introduction

Congratulations on your purchase of the Tandemkross Firestarter Titanium Firing Pin for the Browning Buck Mark. This product is designed to improve the performance of your firearm by providing a lighter, more durable firing pin. This safety instruction guide is intended to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that you are familiar with the operation of your Browning Buck Mark firearm before installing or using the Firestarter Firing Pin.
- Always handle firearms with care, following all safety protocols and guidelines.
- Store the firing pin and all firearm components in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the firing pin and your firearm for wear and damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

## Specific Safety Precautions for Use

- Only use the Tandemkross Firestarter Firing Pin with Browning Buck Marks manufactured after the model year 2000.
- Ensure that the firearm is unloaded before attempting to install or replace the firing pin.
- Avoid using excessive force when installing the firing pin to prevent damage.
- Do not attempt to modify the firing pin or any components of the firearm.
- Be aware that while the Firestarter Firing Pin improves lock time, it does not inherently make the firearm more accurate.
- Always wear appropriate eye protection when handling firearms.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools, including a small screwdriver if required.

### 2. Installation:

- Remove the factory firing pin from the Browning Buck Mark according to the manufacturer's instructions.
- Carefully insert the Tandemkross Firestarter Firing Pin into the firing pin channel, ensuring it is seated properly.
- Reassemble the firearm as per the manufacturer's guidelines.

### 3. Usage:

- After installation, conduct a function check to ensure the firing pin operates correctly.
- Practice proper firearm safety at all times, including keeping the firearm pointed in a safe direction and keeping your finger off the trigger until ready to fire.

#### 4. PostUse:

- After use, clean the firearm and inspect the firing pin for any signs of wear or damage.
- Store the firearm and components in a safe location.

## Disposal Instructions

- Dispose of any damaged or worn firing pins in accordance with local regulations.
- Do not dispose of the firing pin in regular household waste. Instead, consult local guidelines for proper disposal of firearm components.

## Contact Information for Further Support

For safety inquiries or additional support regarding the Tandemkross Firestarter Firing Pin, please refer to the official Tandemkross website or the retailer from which you purchased the product.

By following these safety instructions, you can ensure the safe and effective use of your Tandemkross Browning Buck Mark "Fire Starter" Firing Pin. Always prioritize safety and responsible firearm handling.
