## Versatile, Adaptable Truly Quick-Attach/Detach Scope Mount

KDG's 30mm Sidelok Modular Optic Mount provides user-configurable options that made it one of the most versatile QD scope mounts available. Of course, you can quickly clamp it to any Picatinny receiver rail, then remove it just as fast, with one hand, simply by pressing the release button at the front. The Sidelok Optic Mount's innovative locking system makes it virtually impossible to unintentionally release the mount. Cam lock system ensures the Sidelok will fit all Picatinny rails, even those that are out of spec. The rings on the Sidelok Modular Optic Mount can moved forward or backward to avoid interference with objective bells, turret knobs, or magnification adjustment collars. They are CNC-machined and wire-EDM cut to be as precisely concentric as possible. Top- and bottom-halves are machined together, as a unit, and given Fully machined high-grade aluminum alloy Top & bottom halves machined together, as a unit, for best alignment Witness marks help the user keep the correct top mated to its matching bottom Type 3 hardcoat anodized, matte black The rings on the KDG Sidelok Modular Optic Mount are removable, so you can swap rings to fit a different-diameter scope tube without having to buy a whole new mount.
