Safety Instruction Guide for SnapSafe XXL Combination Lock Box

Introduction

Thank you for choosing the SnapSafe XXL Combination Lock Box. This product is designed to provide secure storage for handguns and other valuables, ensuring peace of mind whether at home, in your car, or while traveling. It is important to follow the safety guidelines and instructions outlined in this guide to ensure safe and effective use of the lock box.

General Safety Guidelines

- Ensure that the lock box is used only for its intended purpose, which is to securely store handguns and valuables.
- Always keep the combination secure and do not share it with unauthorized individuals.
- Regularly check the condition of the lock box and its components to ensure they are functioning properly.
- Do not expose the lock box to extreme temperatures or harsh environmental conditions, which may compromise its integrity.
- Always keep the lock box out of reach of children and vulnerable individuals.
- In case of any malfunction or damage, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- When securing the lock box with the steel cable, ensure it is attached to a stable, immovable object.
- Avoid using the lock box in situations where it may be exposed to theft or unauthorized access.
- Always verify that the lock box is locked before leaving it unattended.
- Familiarize yourself with the combination lock mechanism to ensure smooth operation.
- If you notice any unusual sounds or resistance when operating the lock box, stop using it and check for issues.

Instructions for Installation and Usage

1. Choosing a Location:

- Select a secure and discreet location for the lock box, such as a drawer, closet, or trunk of a car.
- Ensure that the chosen location allows easy access while maintaining security.

2. Securing the Lock Box:

- Use the included 4 ft steel cable to secure the lock box:
 - Loop the cable around a stationary object (e.g., car seat frame, furniture leg).
 - Insert the cable end through the lock box handle and pull it tight.
 - Lock the cable using the provided locking mechanism.

3. Setting the Combination:

- Follow the manufacturer's instructions to set a new combination:
 - Open the lock box using the factory preset combination.
 - Locate the reset button or lever inside the lock box.
 - Set your desired combination by rotating the dials.
 - Confirm the new combination by closing the lock box and reopening it using the new combination.

4. Storing Items:

- Place handguns and valuables inside the lock box.
- Use the foam interior to protect items from scratches and damage.
- Ensure items are secured and do not obstruct the locking mechanism.

5. Locking the Box:

- Close the lid firmly and ensure it is fully closed.
- Rotate the dials to scramble the combination and prevent unauthorized access.

6. Regular Maintenance:

- Periodically check the lock box for signs of wear or damage.
- Clean the exterior with a soft cloth and mild detergent if necessary.
- Ensure the locking mechanism operates smoothly.

Disposal Instructions

- When the lock box is no longer needed or is beyond repair, dispose of it responsibly:
 - Check local regulations for disposal of metal products.
 - If possible, recycle the steel components.
 - Ensure that any combination is reset to prevent unauthorized access.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's website or customer service resources.

By adhering to these safety guidelines and instructions, you can ensure the secure and effective use of your SnapSafe XXL Combination Lock Box. Thank you for prioritizing safety and security.
