

REMINGTON PRO 700 SA CHASSIS ADJUSTABLE - MAGPUL PRO 700 FOLDING STOCK FOR REMINGTON 700 SA ODG

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

Completely Adjustable Rifle Chassis

Magpul's Pro 700 Rifle Chassis combines innovative engineering and precision machining to create a full featured precision rifle chassis for Remington 700 actions. Based on a full billet 6061-T6 aluminum skeleton, the Magpul Pro 700 Rifle Chassis is clad in Magpul polymer for comfort, noise mitigation, and ergonomics. With the swap of a bolt-cutout plate, a reversible cheek riser, and reversible hinge, the chassis is fully ambidextrous, ensuring that left handed shooters are included in the fun! The Pro 700 Rifle Chassis features an injection molded polymer grip with 5-degree forward edge sweep and enlarged palm swell with 7-degree aft edge sweep for enhanced user comfort combined with a .75" fore/aft adjustment range using a common hex wrench. Users can adjust the comb height to 1" with a secondary locking knob, eliminating movement to the cheek riser. An Integrated AICS pattern magazine made of reinforced polymer is included and optimized for PMAG® 5 & PMAG® 10 7.62 AC™ magazines as well as most other AICS pattern short action magazines. Reversible, durable push-button hinge to fold the stock. Overall LOP adjustment range: 13.25"-15.125" Butt pad height adjustment: .90"-1.33", adjustable 5 degrees left or right Cheek riser: 3-position fore/aft adjustment of +.375", 0" and -.375"; left- or right-handed adjustable Durable cast steel rotation limited QD sling swivel mounts with Melonite® finish fits up to 1.5" push button swivels M-LOK slots available for accessory mounting The magazine release is melonite treated steel that is low-profile and ambidextrous A large trigger guard found on the Pro 700 accepts most factory and aftermarket curved or flat triggers, and can be used with gloves. A melonite treated steel magazine release is low-profile and ambidextrous. The Magpul Remington 700 Pro Chassis fits up to an MTU barrel contour and is available in black, flat dark earth, and od green. The Remington 700 Pro Chassis would be a great upgrade to an existing gun, or for your next build!

Safety Instruction Guide for REMINGTON PRO 700 SA CHASSIS ADJUSTABLE MAGPUL PRO 700 FOLDING STOCK

Introduction

Thank you for choosing the REMINGTON PRO 700 SA CHASSIS ADJUSTABLE MAGPUL PRO 700 FOLDING STOCK. This product is designed for use with Remington 700 actions and offers innovative features for enhanced performance and user comfort. This guide provides important safety instructions and guidelines to ensure the safe use of your product in compliance with EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand all instructions provided in this guide before using the product.
- Ensure that the product is assembled and installed correctly to prevent accidents.
- Regularly inspect the product for any signs of wear or damage.
- Keep the product out of reach of children and vulnerable individuals.
- Always use the product in a safe environment, free from hazards that could lead to accidents.
- In case of any malfunctions or concerns, stop using the product immediately and seek assistance.

Specific Safety Precautions for Use

- Ensure that the stock is securely attached to the chassis before use.
- Do not exceed the recommended weight limit for accessories mounted on MLOK slots.
- Be cautious when adjusting the stock length and cheek riser to avoid pinching fingers.
- Always use the product in accordance with the manufacturer's specifications and guidelines.
- When using the adjustable butt pad, ensure it is locked in place to prevent accidental movement.
- If using gloves, ensure that they do not interfere with the operation of the trigger or safety mechanisms.

Instructions for Installation and Usage

1. Installation of the Folding Stock:

- Ensure the chassis is compatible with your Remington 700 action.
- Align the folding stock with the chassis and secure it using the provided hardware.
- Tighten all screws to the manufacturer's specifications using a torque wrench.

2. Adjusting the Length of Pull (LOP):

- To adjust the LOP, locate the adjustment mechanism on the stock.
- Use a common hex wrench to loosen the locking mechanism.
- Slide the stock to the desired length (between 13.25" and 15.125") and tighten the locking mechanism.

3. Adjusting the Butt Pad Height:

- Locate the height adjustment feature on the butt pad.
- Adjust the height between .90" and 1.33" by loosening the adjustment screws.
- Tighten the screws once the desired height is achieved.

4. Setting the Cheek Riser:

- The cheek riser can be adjusted to three positions: +.375", 0", and .375".
- Loosen the adjustment screws, move the cheek riser to the desired position, and tighten the screws securely.

5. Magazine Installation:

- Insert the AICS pattern magazine into the magazine well until it clicks into place.
- Ensure the magazine release is functioning properly by pressing it to release the magazine.

6. Folding the Stock:

- To fold the stock, press the durable pushbutton hinge and gently fold the stock to the side.
- Ensure the stock is locked in the folded position before transport.

Disposal Instructions

- Dispose of the product responsibly in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the product is damaged beyond repair, take it to a designated recycling center for proper disposal.

Contact Information for Further Support

For any questions or concerns regarding safety, installation, or usage of the REMINGTON PRO 700 SA CHASSIS ADJUSTABLE MAGPUL PRO 700 FOLDING STOCK, please contact the manufacturer or authorized dealers for assistance.

Stay safe and enjoy your shooting experience!
