

MS4 QDM Sling - MAGPUL MS4 QDM ONE/TWO-POINT RIFLE SLING BLACK

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Slings](#)

One- and Two-Point Operation Sling

The Magpul MS4 QDM Sling is quickly reconfigurable between a one- and two-point operation, and enhanced by the factory-installed Magpul QDM quick-disconnect swivels! The Magpul QDM has a low-profile design and can be operated single-handily. The swivels are made with a corrosion resistant Melonite finish, and the included sling is 1-1/4" Proprietary weave wide nylon webbing that won't rolover. This sling provides system strength, speed, and security with the use of Magpul QDM hardware, but maintains compatibility with the standard QD sling cup interface. The Magpul MS4 QDM Sling is made in the U.S.A. and is fully Berry Amendment compliant. Secure and rapid length adjustment with MS1® Slider. Freely rotating bale keeps from tails, loops, or other potential snag hazards. Colored webbing has Near Infrared (NIR) treatment to reduce IR signature. Available in black or coyote. Based on the streamlined two-point MS1® Sling adjustment system, the Magpul MS4 QDM Sling retains the low-profile quick-adjust slider which minimizes bulk while allowing for effortless adjustment. The webbing length is optimized for a secure, yet comfortable fit with all body types and body armor setups.

MS4 QDM Sling Safety Instruction Guide

Introduction

Thank you for choosing the Magpul MS4 QDM Sling. This guide provides essential safety instructions to ensure the proper and safe use of your sling. Please read this document carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always inspect the sling before use to ensure it is in good condition.
- Do not use the sling if it shows signs of wear, damage, or malfunction.
- Ensure that the sling is compatible with your firearm and intended use.
- Keep the sling out of reach of children and vulnerable individuals.
- Follow all local laws and regulations regarding the use of slings and firearms.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Avoid Excessive Weight:** Do not exceed the weight limit recommended by the manufacturer for the sling.
- **Proper Adjustment:** Always adjust the sling to fit securely but comfortably to avoid slippage or detachment.
- **SingleHanded Operation:** When adjusting the sling, ensure that you maintain control of the firearm at all times.
- **Avoid Snag Hazards:** Be mindful of your surroundings to prevent the sling from snagging on objects.
- **Check QuickDisconnect Swivels:** Ensure that the QDM quickdisconnect swivels are securely attached before use.

Instructions for Installation and Usage

1. Installation:

- Attach the QDM quickdisconnect swivels to the designated points on your firearm.
- Ensure that the swivels click into place and are secure.

2. Adjusting the Sling:

- Use the MS1® Slider to adjust the length of the sling.
- Ensure that the sling is snug against your body but allows for comfortable movement.

3. Using the Sling:

- To switch between onepoint and twopoint operation, follow the manufacturer's instructions for reconfiguration.
- Always maintain a proper grip on your firearm while using the sling.

4. PostUse Inspection:

- After use, inspect the sling and swivels for any signs of wear or damage.
- Store the sling in a safe place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of the sling in accordance with local regulations.
- If the sling is damaged beyond repair, consider recycling materials where applicable.
- Do not dispose of the sling in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For further assistance regarding safety inquiries or product support, please refer to the manufacturer's official website or customer service resources.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
