Enhances the Springfield Armory EMP

Built to enhance the shootability of the popular Springfield Armory EMP pistol, the Extreme Service Springfield Armory EMP Trigger features specially built construction that provides a number of benefits over the factory trigger design. Constructed from hardened stainless steel, each Extreme Service Springfield Armory EMP Trigger is highly polished to minimize the amount of friction encountered during the trigger pull. Additionally, the design features a smooth face that won't irritate the pad of a shooter's finger during long hours of practice. Additionally, an over-travel stop is fixed into place to enhance reliability. Curved trigger design Available in natural or DLC coated designs Can be had in black or silver colors The Extreme Service Springfield Armory EMP Trigger is available in a number of finishes and cannot be used in standard 1911 pistols.
