

AR-15 SLT-1 CURVED TRIGGERS - KE ARMS AR-15 SLT-1 CURVED TRIGGER W/ AMBIDEXTROUS SAFETY DROP-IN

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

A Drop-In Trigger With Match-Trigger Performance

Military-type AR triggers tend to be heavy and gritty, so when the KE Arms folks set out to design their SLT-1 Curved Trigger solving that problem was their first goal. They also wanted installation of the SLT-1 to be a simple, drop-in procedure so any AR-15 owner could do the job. Using their innovative "sear link" technology, KE Arms team eliminated the disconnecter entirely, producing a constant engagement between the sear and hammer that gives a smooth, consistent pull. And it ensures the SLT-1 trigger resets quickly, ensuring lightning fast follow-up shots. Since there's no disconnecter, energy is conserved and concentrated, producing that gratifyingly smooth pull with less wear and superior longevity. Self-contained, drop-in module fits mil-spec fire control pocket Single-stage 4.5 lb. "Goldilocks" pull - not too heavy, not too light Pre-set at the factory to have minimal takeup/overtravel (not user adjustable) Drastically reduces split times Fits standard .153" hammer/trigger pin receiver holes Available alone or packaged with KE Arms ambidextrous safety that can be set to 90 or 45 throw The SLT-1 even lets you engage the safety regardless of whether the hammer is cocked or down. This greatly reduces the risk of an accidental discharge when transitioning or clearing malfunctions. On the ergonomic side, the SLT-1's traditional curved shoe guides your finger into the same location for every shot, ensuring a consistent pull. Finally, all moving parts are sealed inside the housing, protecting them from fouling and debris. The KE Arms STL-1 curved trigger is compatible with any mil-spec AR-15 lower receiver, pistol caliber blow back systems, and the SIG Sauer MPX. (Will not work with SIG MCX firing pin safety.) Also available with a straight shoe - #100-027-835.

Attributes

- Name: [KE ARMS AR-15 SLT-1 CURVED TRIGGER W/ AMBIDEXTROUS SAFETY DROP-IN](#)
- Manufacturer: [KE ARMS](#)
- Product no.: 100027834
- Mfr. No.: 1-50-11-002
- Style: Curved,Drop-In,Single-Stage
- Weapon type: AR-15
- Delivery weight: 0.108kg
- Shipping height: 178mm
- Shipping width: 114mm
- Shipping length: 178mm

Safety Instruction Guide for AR15 SLT1 Curved Trigger

Introduction

Thank you for choosing the AR15 SLT1 Curved Trigger by KE Arms. This guide provides important safety instructions and guidelines to ensure the safe and effective use of your product. Please read this document carefully before installation and use to understand how to operate this trigger safely.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the AR15 SLT1 Curved Trigger, which is designed for militarytype firearms. This product complies with the EU General Product Safety Regulation (GPSR) to minimize risks during use.
- **Enhanced Recalls:** Stay informed about product recalls. If any issues arise, KE Arms will provide standardized recall notices and remedies at no cost.
- **Online Shopping:** When purchasing online, ensure you buy from authorized sellers to guarantee product safety and compliance.
- **Special Consumer Focus:** This product is not suitable for children. Keep it out of reach of minors.
- **EU Contact Point:** For safety inquiries, please refer to the designated EU contact point provided by the manufacturer.
- **Rapid Alerts:** Monitor the EU Safety Gate system for updates on any unsafe products related to this trigger.

Specific Safety Precautions for Use

- **Read the Manual:** Always read this safety instruction guide thoroughly before using the trigger.
- **Use Proper Firearm:** Ensure that the AR15 SLT1 Curved Trigger is only installed in a compatible milspec AR15 lower receiver.
- **Check Compatibility:** This trigger is not compatible with SIG MCX firing pin safety systems. Ensure your firearm is compatible before installation.
- **Inspect Before Use:** Before each use, inspect the trigger for any signs of damage or wear. Do not use if damaged.
- **Avoid Modifications:** Do not attempt to modify or alter the trigger, as this may result in malfunction or unsafe conditions.
- **Engage Safety:** Always engage the safety when not in use to prevent accidental discharge.
- **Follow Local Laws:** Ensure compliance with local laws and regulations regarding firearm modifications and usage.

Instructions for Installation and Usage

Installation Instructions

1. **Preparation:** Ensure your firearm is unloaded and pointed in a safe direction.
2. **Remove Old Trigger:** Follow the manufacturer's instructions to safely remove the existing trigger from your AR15 lower receiver.
3. **Install SLT1 Trigger:**
 - Insert the SLT1 trigger module into the fire control pocket of your AR15 lower receiver.
 - Align the trigger pin holes with the standard .153" hammer/trigger pin receiver holes.
 - Secure the trigger using the appropriate pins provided.
4. **Check Functionality:** After installation, check the trigger's functionality by cycling the action of the firearm in a safe environment. Ensure that the trigger resets properly and operates smoothly.
5. **Engage Safety:** Always engage the safety when the firearm is not in use.

Usage Instructions

- **Firing:** When ready to fire, disengage the safety and ensure your finger is outside the trigger guard until you are ready to shoot.
- **FollowUp Shots:** The SLT1 trigger is designed for quick resets. Practice safe shooting techniques to maximize performance.
- **Maintenance:** Regularly clean and inspect the trigger and surrounding components to ensure optimal performance and longevity.

Disposal Instructions

- **Disposal of Old Parts:** Dispose of any old trigger components according to local regulations. Do not discard in regular trash.
- **EndofLife Product:** When the SLT1 Curved Trigger reaches the end of its life, dispose of it responsibly. Check with local authorities for proper disposal methods for firearm components.
