

YUGO LOWER RAIL OPTIC MOUNT - RS REGULATE YUGO FRONT-BIASED LOWER RAIL

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

For Secure Mounting of a Tactical Red Dot Sight on Your Yugo AK

The Yugo Lower Optic Mount is part of RS Regulate's modular system for solid, stable mounting of a tactical optic on an AK pattern rifle. The RS AK-300 system pairs a "lower" mount that attaches to the side rail of a Kalashnikov pattern (AK-47, AK-74, AKM, or in this case Yugo M21 or PAP) rifle with an "upper" mount that interfaces with a specific optic model. This system makes it possible to securely - and precisely - mount popular AR-15 tactical optics on an AK platform rifle. This Yugo Lower Optic Mount fits the side rail on Yugo and Serbian pattern rifles, including the Zastava M21, PAP, NPAP and OPAP. It must be paired up with the "upper" mount for your particular optic - sold separately. RS offers the Yugo lower mount in two configurations: AK-306M fits rifles with a front-biased lower rail, while the AK-307M fits rifles with a full-length lower rail. Lightweight & strong 6061 T6 aluminum construction Durable matte black hardcoat anodized finish Low-profile Titanium locking mechanism does not protrude from mount or into triggerguard Installation hardware included Optic-specific upper mount required, sold separately Once matched with an upper mount, the Yugo lower optic mount allows the user to adjust both the over-bore height and front-to-back position of the optic to ensure it is placed for perfect eye relief and a comfortable head position. The RS Regulate mounting system is purposely designed not to require replacement of actual components on the rifle. More importantly, it will NOT interfere with the reliable operation of the rifle.

Attributes

- Name: [RS REGULATE YUGO FRONT-BIASED LOWER RAIL](#)
- Manufacturer: [RS REGULATE](#)
- Product no.: 100028365
- Mfr. No.: AK-306M

Yugo Lower Rail Optic Mount Safety Instructions

Introduction

Thank you for choosing the Yugo Lower Rail Optic Mount by RS Regulate. This product is designed for secure and stable mounting of tactical optics on AK pattern rifles. Please read this safety instruction guide carefully to ensure proper use and to maximize your safety and the safety of others.

General Safety Guidelines

- Ensure that the Yugo Lower Rail Optic Mount is installed correctly before use.
- Always inspect the mount and optic for any signs of damage before installation.
- Do not use the mount if it is damaged or if any components are missing.
- Keep the mount out of reach of children and vulnerable individuals.
- Follow all local laws and regulations regarding the use of firearms and firearm accessories.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Always ensure that the firearm is unloaded before attempting to install or adjust the optic mount.
- Do not attempt to modify the mount or any of its components.
- Ensure that the locking mechanism is securely engaged before use.
- Be aware of your surroundings and ensure that you have a safe backdrop when using the firearm.
- Regularly check the mount for looseness or wear and tighten as necessary.

Instructions for Installation and Usage

1. Installation

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove any existing mounts or accessories from the side rail of the rifle.
- Align the Yugo Lower Rail Optic Mount with the side rail of your Yugo or Serbian pattern rifle.
- Secure the mount using the provided installation hardware. Ensure all screws are tightened properly.
- Install the opticspecific upper mount (sold separately) according to the manufacturer's instructions.

2. Adjustment

- After installation, adjust the overbore height and fronttoback position of the optic to achieve optimal eye relief and head position.
- Ensure that the locking mechanism is engaged to prevent movement during use.

3. Usage

- Always handle the firearm safely and responsibly.
- Ensure that the optic is securely mounted before taking the firearm to the range or field.
- Regularly check the mount and optic during use to ensure they remain secure.

Disposal Instructions

- Dispose of any packaging materials responsibly and in accordance with local regulations.
- When disposing of the optic mount, ensure that it is done in a manner that does not pose a risk to the environment or public safety.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the manufacturer's contact information provided separately.

Thank you for prioritizing safety and for choosing the Yugo Lower Rail Optic Mount. Your responsible use contributes to a safer environment for everyone.
