BLACKHORN 209 MUZZLELOADING POWDER TUBES SAFETY INSTRUCTIONS

Introduction

Thank you for choosing BLACKHORN 209 Muzzleloading Powder Tubes. These tubes are designed to safely store and dispense muzzleloading powder while you are in the field or at the range. This guide provides essential safety instructions to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle powder tubes with care to prevent accidental spills or ignition.
- Store powder tubes in a cool, dry place away from direct sunlight and heat sources.
- Keep out of reach of children and vulnerable individuals.
- Use only in accordance with the manufacturer's instructions.
- Regularly check for signs of wear or damage before use.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the area you are using the powder tubes in is wellventilated.
- Avoid using the tubes near open flames or sparks.
- Do not mix different types of powders in the same tube.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling powder.
- Never exceed the maximum capacity of 120 grains of powder per tube.
- Dispose of any unused powder according to local regulations.

Instructions for Installation and Usage

1. Preparation:

- Ensure your workspace is clean and free from any potential hazards.
- Gather all necessary equipment and safety gear.

2. Filling the Powder Tube:

- Carefully open the powder container and use a funnel to pour the desired amount of powder into the tube.
- Make sure to fill the tube to the appropriate level, not exceeding 120 grains.
- Seal the tube securely after filling.

3. Using the Powder Tube:

- When ready to use, remove the cap and check that the powder is dry and free from contamination.
- Use the tube to dispense the powder into your muzzleloader as per the manufacturer's instructions.

4. After Use:

- Ensure that all remaining powder is securely sealed in the tube.
- Store the tube in a designated safe area, away from heat and moisture.

Disposal Instructions

- Dispose of any unused or expired powder according to local hazardous waste regulations.
- Do not dispose of powder tubes or their contents in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries or further assistance regarding the BLACKHORN 209 Muzzleloading Powder Tubes, please refer to the product packaging for relevant contact information.

Thank you for prioritizing safety and compliance while using BLACKHORN 209 Muzzleloading Powder Tubes. Always remember that safety is paramount when handling any type of powder.
