

# TYPE S MATCH BUSHING FULL DIE SETS - REDDING 24 NOSLER BUSHING FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Type S Match Bushing Full Die Set contains a Type S Bushing Full Sizing Die and a Competition Seating Die. The Type S Bushing Full Die allows full length resizing while maintaining exact control of the case neck.

Interchangeable bushings allow you to determine your own level of sizing and neck tension. The Competition Bullet Seating Die features a micrometer calibrated in .001" increments and floating seating stem system which help eliminate concentricity problems.

# Safety Instruction Guide for TYPE S MATCH BUSHING FULL DIE SETS REDDING 24 NOSLER BUSHING FULL LENGTH DIE SET

## Introduction

Thank you for purchasing the Redding Type S Match Bushing Full Die Set designed for reloading 24 Nosler cartridges. This guide provides essential safety information to ensure the safe and effective use of your die set. Please read this guide carefully before use to minimize risks and ensure compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Ensure that the workspace is clean, dry, and welllit to avoid accidents.
- Keep the die set and all reloading components out of reach of children and unauthorized individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when reloading.
- Familiarize yourself with the specific properties of the cartridge you are reloading, including its potential hazards.

## Specific Safety Precautions for Use

### • Potential Hazards:

- Risk of injury from sharp edges on the die set.
- Potential for improper cartridge assembly leading to dangerous malfunctions.
- Exposure to lead and other hazardous materials during reloading.

### • Avoiding Hazards:

- Always inspect the die set for damage before use.
- Ensure that all components are compatible and properly fitted.
- Follow the manufacturer's instructions for resizing and seating bullets.
- Do not exceed the recommended load specifications for the 24 Nosler cartridge.
- Store reloading components, including powders and primers, in a cool, dry place away from direct sunlight.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is securely mounted on a stable surface.
- Install the Type S Bushing Full Sizing Die into the reloading press according to the manufacturer's instructions.
- Select the appropriate bushing size for your desired neck tension and install it into the sizing die.
- Install the Competition Bullet Seating Die in the same manner, ensuring it is properly adjusted for the bullet length you are using.

### 2. Usage:

- Begin by resizing the cartridge cases using the Type S Bushing Full Die.

- Adjust the die to achieve the desired neck tension, checking the fit with a case gauge if available.
- After resizing, proceed to load the appropriate powder charge into each case.
- Insert the bullet into the case mouth and use the Competition Bullet Seating Die to seat the bullet to the desired depth.
- Regularly check for consistency in bullet seating and overall cartridge dimensions.

## Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations.
- Recycle metal components where possible.
- Do not dispose of hazardous materials (such as powders or primers) in regular waste. Follow local guidelines for hazardous waste disposal.

## Contact Information for Further Support

For any safety inquiries, product support, or to report unsafe conditions, please reach out to the designated contact point for Redding products in your EU country.

## Conclusion

By following the safety guidelines and instructions outlined in this guide, you can enjoy a safe and effective reloading experience with the Redding Type S Match Bushing Full Die Set. Always prioritize safety and stay informed about best practices in reloading. Thank you for choosing Redding products.
