

COMPETITION SEATER DIES - REDDING 24 NOSLER BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

We feel the Redding Competition Bullet Seater is the best bullet 7/8-14 bullet seater on the market today. The machining is precise, and the sliding chamber is the smoothest we have ever experienced in a seater. This micrometer-adjustable die is calibrated in .001" increments for precise seating depth adjustments and is infinitely adjustable (no clicks). It also has a zero set feature that allows you to zero the micrometer to your favorite seating depth. Sold separately or as part of a set. Also available for handgun and straight wall cartridges.

Safety Instruction Guide for Redding Competition Seater Die 24 Nosler

Introduction

Thank you for choosing the Redding Competition Bullet Seater Die for 24 Nosler. This product is designed for precision bullet seating and is constructed with highquality materials to ensure safety and reliability. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that you are familiar with the basic principles of reloading and bullet seating before using this product.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading ammunition.
- Keep this product out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before use.
- Follow all local laws and regulations regarding ammunition reloading and usage.
- Use the die only with compatible cartridges as specified by the manufacturer.

Specific Safety Precautions for Use

- Always ensure that the reloading press is securely mounted and stable before using the die.
- Do not exceed the recommended seating depth adjustments to prevent dangerous overpressure situations.
- Avoid using excessive force when adjusting the micrometer; it should move smoothly without resistance.
- Store the die in a safe and dry environment when not in use to prevent corrosion or damage.
- Do not attempt to modify or disassemble the die, as this may compromise its safety and functionality.
- If you experience any unusual sounds or resistance while using the die, stop immediately and inspect it for issues.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is clean and free of debris.
- Insert the Redding Competition Bullet Seater Die into the press and tighten it securely.
- Adjust the die height according to your reloading setup, ensuring it aligns with the cartridge case.

2. Using the Die

- Begin by setting the micrometer to your desired seating depth. Use the zero set feature to calibrate it to your preferred measurement.
- Place a cartridge case in the press and ensure it is properly positioned.
- Slowly lower the ram of the press to seat the bullet. Monitor the micrometer for precise depth adjustments.
- After seating, inspect the cartridge to ensure it meets your specifications.
- Repeat the process for additional cartridges, making adjustments as necessary.

Disposal Instructions

- Dispose of any defective or damaged dies in accordance with local regulations.
- Do not throw the die in regular household waste. Contact your local waste management facility for proper disposal.

disposal methods.

- Ensure that all packaging materials are recycled or disposed of responsibly.

Contact Information for Further Support

For any inquiries regarding the safety or functionality of the Redding Competition Bullet Seater Die, please refer to the manufacturer's official website or customer service channels for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Competition Bullet Seater Die. Always prioritize safety and adhere to best practices for ammunition reloading.
