

COMPETITION BUSHING NECK DIES - REDDING COMPETITION NECK DIE 24 NOSLER

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Similar in design concept to Reddings Competition Seating Die, the cartridge case is completely supported and aligned with the sizing bushing before the sizing process begins. As the sizing process starts, the cartridge case remains supported in the tightly chambered, sliding sleeve as it moves upward while the resizing bushing self-centers on the case neck. The decapping rod is maintained in precise alignment by using the internal parts of the die as a linear support much like that of a firing pin. Meanwhile, the micrometer adjustment of the bushing position delivers precise control to the desired amount of neck length to be sized. These dies were designed for use by Competition Shooters who have meticulously prepared their cartridge cases and do not wish to use a sizing button, however, carbide size button kits are available separately. Bushings and shellholders sold separately

Attributes

- Name: [REDDING COMPETITION NECK DIE 24 NOSLER](#)

Safety Instruction Guide for Redding Competition Neck Die 24 Nosler

Introduction

Thank you for choosing the Redding Competition Neck Die for your reloading needs. This product is designed to enhance the precision and performance of your ammunition. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always handle reloading equipment with care to prevent accidents.
- Ensure that your reloading area is clean, welllit, and free from distractions.
- Store your reloading dies and components in a safe place, out of reach of children and pets.
- Use the die only for its intended purpose, which is resizing cartridge cases for the 24 Nosler caliber.
- Be aware of potential hazards associated with reloading, such as the risk of injury from sharp tools or equipment.
- Regularly inspect your equipment for wear or damage before use.

Specific Safety Precautions for Use

- Always wear safety glasses when operating reloading equipment to protect your eyes from debris.
- Avoid wearing loose clothing or jewelry that could become caught in moving parts.
- Ensure that the die is securely mounted in your reloading press before use.
- Keep your hands and face clear of the die while resizing to prevent injury.
- Do not exceed the recommended specifications for cartridge cases and powders as indicated in reliable reloading manuals.
- If you notice any unusual sounds or malfunctions during operation, stop using the die immediately and inspect it for issues.

Instructions for Installation and Usage

1. Installation

- Read the product manual thoroughly before installation.
- Securely mount the die in your reloading press according to the manufacturer's instructions.
- Ensure that the resizing bushing is properly installed and aligned.

2. Usage

- Begin the resizing process by placing a cartridge case into the die.
- Slowly raise the press handle to engage the cartridge case with the resizing bushing.
- Monitor the alignment of the cartridge case throughout the resizing process.
- After resizing, remove the cartridge case and check for proper fit and dimensions.
- Repeat the process as needed for additional cases, ensuring consistent results.

Disposal Instructions

- Dispose of any used or damaged dies according to local regulations.
- Do not throw away dies in regular household waste; check with local waste management for proper disposal methods.
- Ensure that all materials are disposed of in a way that prevents harm to the environment.

Contact Information for Further Support

For any questions or concerns regarding the Redding Competition Neck Die, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Competition Neck Die. Thank you for prioritizing safety in your reloading activities.
