

TYPE S BUSHING FULL DIES - REDDING 6MM DASHER BUSHING FULL LENGTH TYPE S DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.

Safety Instruction Guide for TYPE S BUSHING FULL DIES

Introduction

Thank you for choosing the TYPE S BUSHING FULL DIES from Redding. This guide provides essential safety instructions to ensure the safe and effective use of this product. It is important to follow all safety guidelines to minimize risks and ensure optimal performance.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the work area is clean, organized, and free from distractions.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling the die.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the die for signs of wear or damage before use.
- If you encounter any issues or have concerns regarding the product, do not hesitate to seek assistance.

Specific Safety Precautions for Use

- Ensure that the die is compatible with the cartridge you are using (6 mm Dasher).
- Make sure to adjust the bushing position correctly to avoid oversizing or damaging the cartridge neck.
- When using the adjustable decapping rod, handle it with care to prevent injury.
- Be aware of the potential for sharp edges on the die; handle with caution.
- Always follow the manufacturer's instructions for installation and usage to prevent accidents.

Instructions for Installation and Usage

1. Installation

- Remove the die from its packaging and inspect for any damage.
- Install the die into the reloading press according to the manufacturer's specifications.
- Ensure that the die is securely tightened to prevent movement during operation.

2. Usage

- Adjust the bushing position as needed to control the sizing of the cartridge neck.
- Use the adjustable decapping rod to remove spent primers safely.
- Follow the steps below for resizing:
 - Insert the cartridge case into the die.
 - Operate the reloading press smoothly and steadily.
 - Remove the resized cartridge case and inspect it for quality.

Disposal Instructions

- Dispose of any packaging materials responsibly, following local recycling guidelines.
- If the die becomes damaged beyond repair, dispose of it in accordance with local regulations for metal waste.
- Do not throw the die into regular household waste; check for recycling options.

Contact Information for Further Support

For any inquiries or concerns regarding the TYPE S BUSHING FULL DIES, please contact the manufacturer or a local retailer for assistance. Ensure that you have the product details on hand for a more efficient support experience.

By adhering to these safety instructions, you can ensure a safe and effective reloading experience with your TYPE S BUSHING FULL DIES. Thank you for your attention to safety!
