

STRAIGHT WALL THREE DIE SETS - REDDING 450 BUSHMASTER THREE DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Redding die sets for straight wall cases contain three dies. This is necessary because it is not possible to full length resize straight wall cases and expand the neck for proper bullet fit in one operation. The full length resizing die contains a decapping rod assembly. The expander die contains a neck expanding plug. The seating die includes bullet guide, built-in crimp ring and the proper seating plug.

Safety Instruction Guide for Redding 450 Bushmaster Three Die Set

Introduction

Thank you for choosing the Redding 450 Bushmaster Three Die Set. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read this document carefully before using the die set to understand how to operate it safely and effectively.

General Safety Guidelines

- Ensure that the die set is used in accordance with the manufacturer's instructions.
- Keep the die set out of reach of children and unauthorized users.
- Always wear appropriate safety gear, including eye protection, when using this product.
- Inspect the die set for any damage or wear before each use. Do not use if damaged.
- Store the die set in a dry and secure location when not in use.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- **Hazard Identification:**

- The die set is designed for reloading ammunition. Improper use may lead to serious injuries.
- Be aware of the potential for accidental discharge of firearms during reloading.

- **Avoiding Hazards:**

- Always ensure the firearm is unloaded before handling any reloaded ammunition.
- Do not attempt to resize or expand cases that are not compatible with the die set.
- Use the appropriate reloading components as specified for the 450 Bushmaster cartridge.
- Do not exceed the recommended load data provided by reputable sources.

- **AgeSpecific Warnings:**

- This product is intended for use by individuals who are knowledgeable about firearms and ammunition reloading.
- It is not suitable for use by children or individuals lacking the necessary training and experience.

Instructions for Installation and Usage

1. Installation:

- Secure the die set in a reloading press according to the manufacturer's instructions.
- Ensure that each die is tightened properly to prevent movement during operation.
- Adjust the seating die for proper bullet depth based on your specific reloading requirements.

2. Usage:

- Follow these steps for reloading with the Redding 450 Bushmaster Three Die Set:
 - **Full Length Resizing Die:**
 - Insert the case into the resizing die and raise the ram to resize the case.
 - Ensure the decapping rod is functioning correctly to remove the spent primer.
 - **Expander Die:**

- Insert the neck expanding plug into the case to create a proper fit for the bullet.
- **Seating Die:**
- Position the bullet on top of the case and raise the ram to seat the bullet.
- Adjust the crimp ring as necessary to secure the bullet in place.

3. **PostUse:**

- Clean the die set after use to remove any residue or debris.
- Store the die set in its original packaging or in a designated storage container.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of reloading materials or components in regular household waste.
- Contact your local waste management authority for guidance on safe disposal methods.

Contact Information for Further Support

For safety inquiries or further assistance regarding the Redding 450 Bushmaster Three Die Set, please refer to the contact details provided with the product packaging or visit the manufacturer's official website.

By following these guidelines, you can ensure safe and effective use of your Redding 450 Bushmaster Three Die Set. Thank you for prioritizing safety in your reloading activities.
