

224 VALKYRIE GOLD MEDAL BUSHING NECK DIE - RCBS 224 VALKYRIE BUSHING NECK DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Another option in the vaunted RCBS Gold Medal lineup, the RCBS .224 Valkyrie Gold Medal Bushing Neck Die is designed particularly for reloaders looking to customize the amount of tension on only the case neck, not touching the shoulder or the body of the cartridge case at all. This enables users to extend the life of their brass while enhancing accuracy. The use of Gold Medal Series dies does require reloading with high-quality brass, though. Neck bushings are also sold separately and are available in .001-inch increments ranging from .189 to .365 inch.

Safety Instruction Guide for RCBS 224 Valkyrie Gold Medal Bushing Neck Die

Introduction

Thank you for choosing the RCBS 224 Valkyrie Gold Medal Bushing Neck Die. This product is designed for reloaders who wish to customize the tension on the case neck of their cartridges. It is important to follow the safety guidelines and instructions provided in this guide to ensure safe and effective use.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Use the die only for its intended purpose, which is to resize the neck of .224 Valkyrie cartridge cases.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Ensure that you are using highquality brass to achieve the best results and maintain safety.
- Regularly inspect the die for any signs of wear or damage before use.
- Store the die in a dry, secure location when not in use.

Specific Safety Precautions for Use

- Wear appropriate safety gear, such as safety glasses and gloves, when handling reloading materials.
- Avoid using excessive force when adjusting the die to prevent injury or damage to the equipment.
- Do not modify the die or use it in ways not specified in the instructions.
- Ensure your workspace is clean and organized to prevent accidents.
- Be aware of your surroundings and avoid distractions while reloading.
- Follow all local laws and regulations regarding reloading and ammunition.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Remove the die from its packaging and inspect it for any damage.
- Screw the bushing neck die into the reloading press until it is snug.
- Adjust the die according to your desired neck tension. Use neck bushings sold separately in .001inch increments for precise adjustments.

2. Usage:

- Prepare your cartridge cases by cleaning and inspecting them for defects.
- Insert a case into the shell holder of the reloading press.
- Raise the ram to bring the case into contact with the die.
- Slowly lower the ram to resize the neck of the case.
- Repeat the process for each case, ensuring consistent application of force.
- After resizing, inspect each case to confirm proper neck tension.

Disposal Instructions

- Dispose of any damaged or worn components according to local regulations.
- Do not throw the die or any reloading materials in regular trash.
- Check with local waste management authorities for proper disposal methods for reloading materials and equipment.

Contact Information for Further Support

For inquiries regarding safety or product information, please consult the manufacturer or authorized retailers.

By adhering to these guidelines, you can ensure a safe and effective reloading experience with your RCBS 224 Valkyrie Gold Medal Bushing Neck Die. Always prioritize safety and caution while handling reloading equipment and materials.
